VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. JULY 25, 1895. NO. 29

THE MURDER OF PITEZEL.

A "Crank" Wants to Prove an Alibi for Holmes Who Doesn't Know Him.

Philadelphia, July 19.—The wide publicity given to the Pitezel murder case has brought out the "crank" and it is to this genus that the stranger who visited the office of Holmes's attorney yesterday belongs. Lawyer Shoemaker visited Holmes at the county prison this morning and to his client related what the stranger had told him yesterday about being able to prove an alibi for Holmes and told him his name. Holmes denied any knowledge of the man and when the stranger appeared at Mr. Shoemaker's office again this morning he was put through a course of sharp questioning that developed the fact that his name was Francis Winschoff and that he was a spiritualistic crank, who lives in this city. Mr. Shoemaker did not take long to impress upon his visitor that his phychological alibi was not needed and the man left.

There was one fact developed to-day that goes a little way toward bolstering up Holmes's shattered reputation for being unable to tell the truth. His mysterious friend "Hatch" is a reality and not a myth. Reliable information of the man's identity has been established. His name is Edward Hatch and he worked for Holmes in Fort Worth, Texas, and is now supposed to be in Chicago. Although the man's identity has been established, nothing has been learned that in any way shows that he was in Toronto at the time Holmes says he gave the children into his charge there. Holmes is preparing a statement of his side of the case which will be given to the public in a few days. He has also sent a statement to District Attorney Graham. At the district attorneys's office practically nothing about the case can be learned.

It Is Now a Question of Veracity.

Old Forge, N. Y., July 19.—Further and most positive evidence in support of the story sent out on the United Press wires concerning General Harrison's remarks touching upon the presidency was gathered to-day by the United Press correspondent. After Major Poole and Joseph I. Sayres, with other members of the Grand Army delegation, had reached the Forge house from Dodd's Camp, Thomas Sayle, a member of the delegation, met Charles W. Ball, of Syracuse, who is organist in the Trinity Episcopal church. The two gentlemen are neighbors and on friendly terms. Mr. Ball asked Mr. Sayle about his trip to Dodd's Camp and how General Harrison was looking. When minor matters about the visit were finished Mr. Ball said to Mr. Sayle:

"Was anything said about the presidency?"

"Yes," replied he, "Harrison said he did not want it."

That was all that Sayle said about the matter, and Mr. Ball did not further question him.

Mr. Ball and the informant of the United Press correspondent are highly reputable gentlemen and their reputation for veracity cannot be questioned.

Cowards Wound a Woman.

St. Louis, Mo., July 22.—A special from Gallatin, Tenn., says that there was a dance given at Speakville, in the northern portion of the county Saturday night. West Dixon and his wife attended. They were disliked by the the people there and were ordered from the grounds and withdrew to a wagon nearby. Here Dixon was attacked by Bill Davidson, a moonshiner, and shot the latter dead. Dixon and his wife then ran into the bushes, pursued by seven or eight men, firing as they ran. Dixon fell with five bullets in his body. His wife received a bullet in her hip that will likely prove fatal, while Dixon is expected to die.

A Pugilist Killed.

Milwaukee, Wis., July 22.—A young Milwaukee pugilist named Schmidt was killed as the result of a mill held near North Milwaukee last night. It was a private affair and quite a number of sports were present. Schmidt was hit and fell forward. The crowd saw he was dangerously hurt and ran away. A doctor was summoned and the man brought to Trinity hospital, where he died this morning. It is not known who his opponent was. No mark of violence can be found on the body and it is supposed the man died from the shock.

Brennan Identified by Miss Davis.

Philadelphia, July 23.—William Brennan, alias "Reddy Larkins," who was recently arrested on a minor charge, was today identified by Miss Davis as the burglar who murderously assaulted her while robbing her parents' cottage at Atlantic City. The young lady's life was for several days despaired of. Magistrate Jermon to-day committed Brennan for a hearing to-morrow.

IS TROUBLE BREWING?

A Hastily Summoned Meeting of Cleveland's Cabinet Held.

Washington, D. C., July 19.—Secretary Olney arrived suddenly and unexpectedly in Washington to-day from Falmouth, his summer home, and summoned a council of the cabinet officers in town, which lasted for two hours. He reached here about noon and went almost immediately to the war department, where he had an hour's talk with Secretary Lamont. Shortly before 4 o'clock Mr. Olney called on Secretary Herbert at his office and then walked over to the state department where Secretary Carlisle and Attorney General Harmon, who had been summoned by telephone, joined them soon after. For two hours Secretary Carlisle and Herbert and Attorney General Harmon were closeted with Mr. Olney in his private office. Many rumors were set afloat by Mr. Olney's unexpected arrival and it s said the meeting was caused by a serious crisis in this country's relations with Spain.

All the cabinet officers who were at the meeting refuse to say anything on the subject under discussion, but from the manner in which one of them spoke it would appear that the reason for the conference is a serious one. While the reason for the conference can be mere speculation, it is probable that the condition of Cuban affairs brought Mr. Olney to Washington. Frequent complaints of the Spanish minister that filibustering expeditions are being constantly fitted out in this country has caused the Washington Government much embarrassment, and it is not improbable that it has been decided by the president to take action that will prevent claims by Spain against the United States for violation of the neutrality laws, and that the cabinet conference this afternoon was for the purpose of devising ways and means of protecting this Government in that regard.

There was one rumor afloat in connection with Mr. Olney's visit here that was promptly denied by all of the cabinet officers. This was that Mr. Cleveland is ill at Gray Gables. Mr. Olney will return to Falmouth to- orrow morning.

Held An Interview with Holmes.

Philadelphia, July 22.—District Attorney Graham had a two hours' conference with H. H. Holmes, the life insurance conspirator and supposed murderer of the Pitezel children and others. The conference was secret, but it is supposed that Holmes gave the district attorney an alleged clue whereby the Williams sisters, whom he is suspected of having murdered in Chicago, can be located. Holmes's wife was present at the conference. After the conference Mrs. Holmes said that her evidence would be favorable to her husband.

It was learned this evening that Holmes has admitted that Mrs. I. L. Connor, the Chicago woman who is supposed to have been another of his victims, is dead. Where, when or how she died is not known as beyond the mere fact of having admitted her death none of the particulars of Holmes's admission could be learned. Nothing is known of what became of Mrs. Connor's 12-year-old daughter, who is also thought to have been made away with by Holmes at the time he killed her mother.

At a conference to-day in the district attorney's office the diary by which Holmes expects to help establish his alibi of the charge of murdering the Pitezel children in Toronto was read. The diary is merely a chronicle of the arrival of Holmes and his wife at various places. It is said that Mrs. Howard, Holmes' wife, will admit that during their stay in Toronto Holmes was absent from her for two days. Holmes since he has learned of the discovery of the bodies of the two Pitezel children has lost the confident air he has hitherto borne and has become thin and has a harrassed look as if he was not so sure of his position.

The Keystone of the Arch.

In the edifice of health is vigor, which means not muscular energy but an active discharge of the various functions of the body, such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the renowed tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the tenure of life is being strengthened—that one is lying up a store of vitality against the unavoidable draughts which old age makes upon the system. The fortifying influence of the Bitters constitute it a reliable safeguard against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and it protects the system from the effects of cold and damp.

TERRIBLE MARINE DISASTER.

Steamer Ortiga and Maria P. Collide with Each Other.

Spezzia, Italy, July 21.—A terrible accident occurred near the mouth of the Gulf of Spezzla to-day. The steamer Ortigia and Maria P. ran into each other and the latter was so badly damaged that she sank in a very short time. She had on board, in addition to her crew, 141 passengers from Naples, all of whom were drowned.

LATER.—The Maria P. had on board in addition to her crew, 178 passengers, bound from Naples to the river Platte, most of whom were emigrants. Only thirty of these were saved, but all but three of the twenty members of the crew were saved. It was pitch dark when the collison occurred and most of the passengers were asleep in their bunks, and were awakened by the crashing of the steamers' plates, deck beams and deck planks. They were panic stricken and rushed pell mell on deck, where they ran hither and thither, calling upon the saints to save them. The blackness of the night added to the terror of those on board, and it is understood that some of the passengers, crazed with fear, jumped overboard.

Only one boat is known to have got away from the sinking vessel. That rescued the majority of the crew and thirty of the passengers. No mention is made of the Ortigia lowering boats to attempt to rescue the imperilled people on the Maria P. Whether the former vessel was damaged or not is not known.

On her previous voyage the Ortigia collided in the same spot with a French steamer, and this fact adds strength to the belief that she was responsible for this morning's disaster. Admiral Morin, minister of marine, has ordered an inquiry to be made into the accident.

A Jail Delivery.

Millintown, Pa., July 21.—Frank Evans and Joe West, two of the three men confined in jail here charged with the Hertzler burglarly committed last May, when cash and securities amounting to $50,000 were stolen, broke jail about 1 o'clock this morning. They made their escape by sawing the iron window bars of their cells and reaching the ground by ropes made of bed clothing. The second broke a window pane in making his descent and the sheriff was aroused by the noise. A prompt effort was made to recapture the men, but the darkness aided the prisoners and they are still at large.

The third member of the gang occupied a separate cell. When the officers entered the cell this morning to search him, he made a desperate break for liberty, knocking down the deputy sheriff and a fellow prisoner. He was controlled by a blow on the head with a heavy iron key and in consequence required surgical attention. A man who has been lurking about town recently was arrested to-day on suspicion of giving outside aid to the two who escaped.

Holmes Blamed for More Murders.

Chicago, July 21.—To the long list of murders and other crimes directly traceable to the arch fiend, H. H. Holmes, must now be added the mysterious disappearance of Mrs. I. L. Connor and her 12-year-old daughter, with a reasonable certainty that they may have been disposed of in the same manner in which the rest of his victims met their death. Mrs. Connor and her child were last seen in the company of Holmes in this city in 1893. Since then all traces of them has been lost. The woman was Holmes's mistress and knew many of his secrets. The rib-like fragments found in the ashes under the stove in the room of the Holmes house on Sixty third street and supposed to be the remains of the two missing Williams girls were subjected to a chemical test and pronounced to be bits of fire clay.

None Guessed the Right One.

Washington, July 21.—Shortly after the birth of the third daughter to President and Mrs. Cleveland, the *News* of this city offered a prize to the person guessing the name to be given the baby. The result was announced to-day: Five thousand nine hundred and thirty persons guessed forty-four different names, but not one named Marion. The nearest to it was Miriam. Naomi was the most popular, 890 naming that.

Did Not Expose Their Trilbys.

Norristown, July 21.—Miss Sarah Cressman denies that at the Trilby party at her residence, last week, the young ladies exposed their bare feet beneath the screen. The young gentlemen present had a much more difficult and less pleasant task to win their prizes, for the fair ones had their feet snugly clad in their regulation boots and stockings.

STOPPED THE BOAT.

A Sunday Afternoon Episode Near Key West, Florida.

Key West, Fla., July 21.—This city was greatly excited this afternoon by hearing reports of cannon and it was soon learned the revenue cutter McLane was firing at the tug George W. Childs, which left this morning. Soon after leaving the collector of customs, upon information of the Spanish consul, ordered the McLane to overtake the Childs and bring her back to port. It was rumored that a deck hand by the name of William Lynch who was shipped at Jamaica, had furnished the consul with information to the effect that she was bound on a filibustering expedition.

Lieutenant McHay, of the McLane, says that signals were set for the Childs to heave to, but no attention was paid to them, and seeing no chance of overtaking her, two solid shots and one shell were fired before she came about. She was boarded by a crew from the cutter and Lieutenant McHay in command and brought into port. Captain Swain, of the Childs, is very indignant at having been fired upon, and states that he knows of no reason why such action should have been taken against him. He says that he was properly entered from his trip from Jamaica, and while some slight irregularities did exist in his crew list, it was owing to the fault of his brokers at Philadelphia and had been settled at the custom house here. He said yesterday about noon he cleared his tug for New York, having first surrendered his register and taken out enrollment and coasting license and that shortly before leaving the assistant engineer reported to him that he saw a party offer Lynch some money and he was informed by Lynch that it was $200 to corroborate what the fireman had reported. His answer to the party was that he knew nothing and could say nothing. The captain sent one deck hand, shipped at this port to find out the party. He returned, stating that Lynch was then talking to the Spanish consul. The entire Cuban population turned out to visit the Childs this afternoon.

Princeton Students Missing.

Denver, Col., July 21.—It is feared here that a party of Princeton students have fallen into the hands of the Bannock Indians. Nearly two weeks ago the students forming the geological expedition went through Union Pass and since telegrams have been received here for them without finding any means of delivery. They were on the way to National Park and were due on their return trip about the end of July. They are in a dangerous country and if they are alive, the fact remains that the government has recently been stirred to great activity, as orders were received yesterday at Fort Washakie for the sending of an expedition of troops. There are only forty-three men at the post and the expedition cannot be very formidable, but it is the best that the army can do. Reports from Jackson's Hole says that there are fully 300 Indians assembled there. Another report from Fort Washakie says that the two Indian police and judges who were sent to Jackson Hole nearly two weeks ago have returned. They were forcibly detained by the Bannock's and had to escape by strategy.

A Jealous Husband's Murderous Act.

Burlington, N. J., July 21.—Charles Thompson, of Edgewater Park, lies in the city hall, in this city, stabbed and fatally hurt. John Daly, of Beverly, was the assailant and Mrs. Daly is the woman in the case. For some time past Daly had been suspicious of Thompson. Last night accompanied by his wife, he was going to their home, when they were overtaken by Thompson, Daly at once accused Thompson of intimacy with Mrs. Daly. The lie passed and, without a moment's warning, Daly drew a shoemaker's knife and stabbed Thompson repeatedly. The most serious wound was across the inside of the right wrist, severing the arteries, and the man nearly bled to death before he could be given medical attention. Dr. George Cassady says his condition is serious. Daly was arrested.

Coal Contract Awarded.

The awarding of the N. Y. C. R. R. contract for coal among the several large operators in the Clearfield section was the principal event in coal trade circles during the last week. Magee & Lingle obtained 350,000 tons, 150,000 to be filled at the at the Patton mines, the Clearfield Bituminous Coal corporation, 400,000 tons; Bloomington Coal Mining company, 110,000 tons; O. Perry Jones, 100,000 tons; Baltic Coal company, 70,000 tons. It is understood the Davis Coal company, of West Virginia, also secured 60,000 tons, which would make the amount to be filled in that region less than was the amount last year. The N. Y. C. contract, which includes the supply of coal for the West Shore, usually calls for between one million and a million and a quarter tons, but in no year has the company taken the full amount named in the contract.

THAT COUNTY CONVENTION.

Very Large and Enthusiastic.—Hastings and Gilkeson Endorsed.

It was just 11 o'clock when County Chairman W. E. Gray, called the Republican county convention to order, the court house being crowded to its utmost capacity—the largest convention held in Bellefonte by any party in many years. The various delegations were huddled together and Philipsburg and Rush township, the Quay delegation, was very conspicuous by the badges they wore on which was the inscription, "We are Republicans, and we wear no man's collar." Side by side, sat the lone delegate from South Philipsburg wearing a badge bearing the inscription "Quay never touched me."

Asst. Secretary Rees read the call for the convention and Secretary Harry Keller read the the list of delegates and 120 answered to their names.

At the conclusion of the roll call a permanent organization was effected by the election of John C. Miller chairman; Joseph T. Barton, of Unionville, and Andrew Gregg, Jr., of Potter township, secretaries, and Mr. Harry Keller, reading clerk.

Hon. James P. Coburn submitted a program of the order of business, which was adopted.

The following were then appointed a committee on resolutions: Dr. Atherton, M. M. Musser, W. P. Lucas, Harry Hewitt and J. J. Fisher.

A committee of five on credentials were then appointed,

Mr. S. S. Crissman then offered a resolution to submit to the committee.

The nomination of State Delegates being the next in order, the names of Gov. D. H. Hastings, S. H. Bennison, as the administration delegates, and Victor Gray and A. A. Dale, as the Quay delegates, were announced. On the first ballot the vote stood for Hastings and Bennison, 108 Dale and Gray, 12. On motion of S. S. Crissman the vote was made unanimous.

When Chairman Miller stated that the time had arrived for nominations for prothonotary, Mr. Hoover at once arose and withdrew his name from the contest. Dr. Christ nominated A. V. Miller and Mr. Brisbin nominated C. F. Deininger, of Centre Hall. On the first ballot the vote stood Miller 86, Deininger 34. Miller was then declared the nominee of the convention.

On the nomination of S. S. Crissman, H C. Quigley, Esq., was nominated by acclamation for the office of district attorney.

W. E. Gray was re-elected county chairman for the year 1896.

The committee on resolutions then read its report.

As conferrees to meet with other conferrees from this congressional district to elect one delegate and one alternate to the national convention in 1896, Col. James P. Coburn, W. E. Gray and W. L. Malin were appointed.

On motion the convention then adjourned.

THE RESOLUTIONS:

The Republicans of Centre county in Convention assembled reaffirm allegiance to the great principles of which their party has always been the advocate and supporter and pledge themselves anew to maintain and defend them.

The Republican party was organized on Pennsylvania soil as a protest of the moral sense of the nation against the policy of surrendering the National Government to the denomination of the slave power. It rescued the country from that deep disgrace. It preserved the unity and integrity of the nation. It devised a financial system which met all the requirements of a long and devastating war. It reunited broken ties and cemented anew the bonds of fraternal union. It maintained the sacredness of national obligations and povided means for the prompt and full payment of the debt incurred in preserving the Union. It fostered the building of railways across the continent and navies on the ocean. It promoted the developement of our vast material resources, and organized a system of protection to American industry which secured unprecedented prosperity for labor and capital alike, and made the progress of the United States for a period of twenty-five years the marvel of the nineteenth century.

We look with pride upon these great achievements of the Republican party in the past, and cordially invite our fellow citizens, without regard to previous party affiliations, to join us in promoting such measures as will speedily restore the country to the full degree of prosperity which it so long enjoyed under the consistent, enlightened and progressive policy of successive Republican administrations.

We rejoice in the sure signs of recovery from the deep depression into which our whole industrial, commercial and financial interests had been plunged by the disastrous and blundering policy of the party temporarily in power, and we look with confidence to see the revival of prosperity which was assured by the overwhelming Republican vote of 1894, fully confirmed and established by the election of a Republican President and Congress in 1896.

We congratulate our fellow Republicans of Pennsylvania on the magnificent vote which placed the Keystone State at the head of the advancing Republican column, and we cherish a just pride in the fact that the chosen standard bearer in that great campaign was one of our own citizens. Since the years of his early manhood Gov. Hastings has been one of our number. He has added to the virtues of a blameless private life the full and honorable discharge of all his duties as a citizen. He has been faithful to every trust and equal to every responsibility. We have observed, with increasing pride and confidence, his able, dignified and honorable administration as Governor of the Commonwealth, and we send him to-day our most cordial and respectful greetings, with the assurance of our unfaltering confidence, loyalty and support.

We extend our congratulations to the Hon. B. F. Gilkeson, Chairman of the Republican State Committee, on the honorable, manly and able manner in which he has directed the recent campaigns of the party and on his brilliant success in making each succeeding majority larger than its predecessor. We recognize his conspicuous fitness for the position he holds and cordially endorse him for re-election.

We recognize the sagacity and breadth of judgment with which Governor Hastings has performed the difficult and delicate task of selecting the first appointees for the newly established Superior Court; but we especially desire to record our appreciation of the eminent and peculiar fitness of his selection of our fellow citizen, Ex-Governor James A. Beaver—one who has born his honorable part in all the duties of peace and of war, "without fear and without reproach"—and we trust that his appointment may be ratified by the unanimous vote of the State Senate.

We extend our thanks to the Hon. H. R. Curtin and the Hon. P. E. Womelsdorf for the faithful and efficient manner in which they represented the county in the last Legislature and for their watchful care of local interests, while not neglecting their broader duty to the State at large.

We heartily commend to the people of Centre County the candidates placed in nomination by this Convention for the offices of Prothonotary and District Attorney. We believe that the best interests of the County will be faithfully served by their election and pledge them our united support.

HASTINGS WINS EASY.

And the Quay Fight in Centre County Pans Out a Fizzle.

The Centre county Republican primaries were held Saturday afternoon and evening and the result proves that the administration is fully endorsed by Centre county Republicans, and that however much the people of this section appreciate the work and worth of Matthew Stanley Quay, they will not forsake a home man and candidate to place themselves subject to the leadership and dictatorship of the Senator from Beaver. The primaries were well attended all over the country and wonderful enthusiasm was shown, but of all the votes cast Quay did not receive above five per cent. of the total.

At this writing enough precincts have been heard from to give a total of nearly 100 delegates. Of this number Quay got 12—the First and Third wards of Philipsburg, and the two precincts in Rush township, while all the others were instructed for Hastings and Bennison, the administration delegates. There are yet about 30 delegates to hear from and out of this number Quay may get a few more, but they will be few. So that it is safe to say Gov. Hastings will go into next Tuesday's convention with anywhere from 105 to 112 delegates at his back. This certainly is a pretty good indorsement from his own home.

On the county ticket, H. C. Quigley being the only candidate for the office of district attorney, will get that nomination without a struggle, while for prothontary, the contest will lay between Miller and Deininger, with the chances in favor of Miller.

Three Men Killed by Dynamite

Chicago, July 23.—Dynamite instantly killed three men and seriously injured a fourth on the Drainage canal this afternoon. The accident occurred near Willow Springs and was caused by a premature explosion during the process of tamping. The dead are: William Kelley, Thomas Soaker and Joseph Smith. Injured, Matthew Healy. The men were employed as laborers. Nearly 100 men were working a short distance away and it is remarkable that more deaths did not result.

SUPERIOR COURT IN CHANCERY.

Issues the Following Challenge to the Centre County Bar.

To the Members of the Centre County Bar Association:

SIRS:—On motion of sundry Centre County Officials, whose names in attestation thereof are hereto attached, a rule was granted returnable in two days, whereby you are required to show cause why you should not meet the said County Officials in a game of base ball to be played in the Glass Works' meadow, or some other place to be mutually agreed upon, on Thursday afternoon, July 25th, at 3 o'clock sharp, and under the rules hereto attached.

Hereof fail not, or hereafter hold your peace and "take a sneak."

In witness whereof, I have hereunto set my hand and affixed the Seal of said Court at Bellefonte, this 17th day of July, A. D. 1895. J. H. HOLT,

W. F. SMITH, Clerk. Superior Judge.

W. Galor Morrison, Yakobus LeVtrosn, Robert Franklin Hunter, C. C., H. Jowett Jackson, T. Frank Adams, George Washington Rumberger, William J. Singer, George Luther Goodhart, A. B. Kimport, Origen Atwood, John F. Koch, John Q. Miles, John P. Condo, J. Calvin Weaver, O. D. Eberts, Wm. Dukeman.

RULES AND REGULATIONS.

1. In order to defray expenses each player must subscribe five (5) dollars, to be secured by bond and mortgage on their respective characters.

2. No person belonging to the society for the prevention of cruelty to animals shall be eligible as a player.

3. Recorder Morrison shall act as ring-master, call the game, place the batters and settle all disputes between The "Empire" and players, and there shall be no appeal from his ruling, and no intimidation with fire arms will be allowed.

4. No person will be allowed to carry concealed weapons except the Umpire or shoot off his mouth if the Umpire decides against him.

5. The Umpire shall not be permitted to shoot any body on the spot unless the occasion will justify the act, in which case the said Umpire will be held for the funeral expenses.

6. No lynching will be permitted within 100 feet of the ball grounds.

7. No batter shall be permitted to make two home runs on one strike.

8. Lost ball don't count and the batter may make as many home-runs as he can until the ball is found.

9. Any Attorney who shall be guilty of throwing "Blackstone" at his enemy shall pay a fine of nineteen cents, (This is a goak.)

10. No [illegible] nut stands will be allowed within fifteen feet of the batter.

11. The small boy must give the signal for applause and all those refusing to join in the same will be speedily ejected from the grounds.

12. Each player must be provided with a pint bottle of milk shake or its equivalent.

13. This is a Hoo-doo number, look out.

14. No player will be permitted to follow the ball on a "bike."

15. Chewing gum by the players is strictly forbidden unless seriously wounded by ball or bat.

16. If any player should get an arm or leg broken during the progress of the game he will be excused if he furnishes a substitute.

17. If a player should trip and fall in running from base to base he must call out "barley my base" other wise he may be crossed out.

18. The pitcher must throw the ball straight and with a velocity not exceeding 5 miles an hour.

19. To catch a fly in a hat wont count as this may tend to spoil the uniforms of the clubs, but bread baskets, peach baskets, or salt sacks and gunny bags may be used.

20. Width of paddles used is limited to 10 inches.

21. Any person calling a base by the name of corner will pay a fine of 15c.

22. Yarn balls made of old stocking feet won't go in this game, (See Vol. 2, pp. 123, "Rumberger's Digest and Revised Rules of Base Bawl.)

23. Each side must find their own bawls and bats.

24. Newspaper reporters and ladies in bloomers may occupy reserved seats.

25. Admittance to the ball grounds absolutely free, gate receipts to go to the attorneys.

26. Should any of the challenging party become "fatigated" (this means tired) by reason of excessive obesity, age, rumatiz, or from that tired feeling resulting from any other cause, he shall be allowed to place a substitute in his place. Not so with the challenged.

27. The selection of uniforms will be left to the individual tastes of the members, barring bloomers, mother hubbards, penitentiary-striped stockings and shirts, and "Trilby" shoes, or other make up that may shock the delicate senses of the ladies and newspaper reporters present.

28. The game shall consist of nine innings unless sooner terminated by riot or other cause.

29. The victors shall pay for the bats and balls.

And now, July 17, 1895, service of the within is hereby accepted, with blood in our eyes, anxious for your scalps.

J. W ALEXANDER,
H. C. QUIGLEY,
Attys for Centre Co. Bar. Ass'n.

A Bulgarian Patriot.

That Stambouloff should die with his bootson is in the natural order of things. Nobody doubts the intensity of his patriotism, but the methods of his opposition to Russia have been as despotic as any that Russia has known, and the only means yet developed for tempering this kind of despotism is assassination.

Stambouloff represents the Bulgarian as opposed to the Slavonic party. Though it is to Russia alone that Bulgaria owes its deliverance from the intolerable cruelty of the Turk, Stambouloff, and those who shared his patronage of the Slavs, preferred the patronage of the Western powers to that of Russia, and the whole history of Prince Ferdinand's reign has been one of intrigue and counter-intrigue between Slavonic and anti-Slavonic influences.

It is the custom, of course, to blame every disturbance upon Russian emissaries, but the plain fact is that the natural alliance of Bulgaria and all of the Balkan principalities is rather with the East than with the West, and however heroic may have been Stambouloff's efforts for Bulgarian independence, he has all along been fighting against tendencies that he could not overcome.

To carry on his fight, he did not hesitate at the most despotic means. When an attempt was made upon his life four years ago, and a subordinate Minister was killed instead, he embraced the opportunity for the summary execution of a number of his political opponents who were in no way concerned in the assassination. His policy, instead of strengthening his cause, has gradually weakened it, and the more openly he sought the protection of Austria and Germany the more he played into the hands of the Russian party.

Thus Stambouloff has gradually become discredited and by many execrated, and recalling his stormy administration it is not necessary to look for foreign interference in this renewed attempt at his removal. But he nevertheless remains one of the picturesque figures of contemporary history and his death may have important consequences to Eastern Europe.

Heavy Shipments of Ore.

Trains loaded with ore will soon be passing through this place. A large fleet of ore vessels is expected at Erie, fifteen thousand tons of fine Bessemer having been received at that port yesterday. The Philadelphia & Erie Railroad has already shipped to Harrisburg about fifty thousand tons this season. The Erie & Pittsburg is hurrying forward the ore to the Shenango valley, and has sent forward 126,000 tons since the opening of navigation.—Lock Haven Democrat.

Heat

*** Prostration**

causes every organ in the body to temporarily suspend operations. Unless they are made to resume their natural functions, death ensues.

Bovinine

is invaluable in such cases. A few drops introduced into the system promotes vitality, without an increase of heat, such as follows the use of stimulants.

Invalids Who Live Long.

Let those who are haunted with suspicions of heart disease, and even those who have good reason to know that they are suffering, take courage from a story told by the late Sir Andrew Clark in the course of a clinical lecture at the London hospital. After reminding the young students of the necessity for caution in the "prognosis" or forecast of the disease, Sir Andrew went on to relate an anecdote of a house governor of that very hospital—a clergyman who was about to be married. His intended fatherinlaw came to him and said: "You see, you have no money, sir; you must go and get your life insured." At the end of the medical examination the physician said to him: "We cannot accept you." "Why?" said the astonished house governor. "Oh, we would rather not say." "But," he said "I have never been ill in my life" (and, indeed he was a sturdy fellow.) "Well," said the physicians, "if you will have it, you have got heart disease." "Heart disease? How long shall I live? Shall I live six months?" "Oh yes," replied the medical men, "you may do that." He went home, and the match was broken off. He wrote to the committee saying that as he had a mortal disease of the heart and could not live for six months, he withdrew his application for rooms wherein to dwell with his wife. On the receipt of this letter the committee deliberated and said: "we must superannuate him. Poor fellow! and as he has but six months to live we will let him have his full pay." Accordingly he was superannuated upon his full pay, and upon this superannuity (said Sir Andrew) he lived for more than fifty years.

Relief In Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y.

Osceola, Clearfield county, a town of 3,000 population, has no dentist.

What the Newspaper Does.

No merchant can expect to do a thriving business unless he advertises in the home newspaper. People who go shopping haven't got the time to run from one store to another, they are thoroughly posted on the places where they can get what they want. The newspaper saves them much time and trouble, and the thrifty merchant is the one who makes the advertising a necessary adjunct to his business.

An instance of China's imperviousness to enlighten ideas is cited by a correspondent in the East, from the fact that a Catholic orphanage in Tien-Tsin is obliged to bind the feet of the girls in its charge in order that they be eligible as wives when they reach the marriageable age. But that the Chinese are not entirely beyond the civilized art of repartee is shown by a Chinaman who writes to a Shanghai newspaper saying that the feet binding custom is reprehensible, but that it ranks with waist binding among the women of Caucasian races, and calling on the women of America and Europe to set a good example to China by abolishing the corset. On the whole China does not appear to have the worst of that bout.

ENGLISH Spavin. Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Stifles, Sprains, all Swollen Throats, Coughs, etc. Save $50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y

EXPECTANT MOTHERS,

We Offer You a REMEDY Which INSURES Safety of Life to Mother and Child.

"MOTHERS' FRIEND"

Robs Confinement of Its Pain, Horror and Risk.

My wife used "MOTHERS' FRIEND" before birth of her first child, she did not suffer from CRAMPS or PAINS—was quickly relieved at the critical hour suffering but little—she had no pains afterward and her recovery was rapid.

SOLD BY ALL DRUGGISTS.

A Shocking Accident.

About 3 o'clock Thursday afternoon Elmer Barger, a 23 year old son of James Barger, of Curtin's works, was run over by a west bound freight train and possibly fatally injured. He was sitting on the middle of the track, just a short distance above the station when the train approached and when he did not move, in response to the repeated whistling of the locomative, an attempt was made to stop the train, but it was too late. The engine and seven cars passed over him, tearing and mangling his body in a terrible manner. The train stopped immediately and the young man was taken out from under the cars and carried to his home by the trainmen and some others who were about the station, when the accident occurred, Drs. Hoy and Locke were immediately summoned and at once proceeded to Roland. They found it necessary to amputate the left leg and left arm. The operation was performed in the evening at 7 o'clock and it was not known whether the unfortunate young man would survive it or not. He was badly cut about the head has a number of ribs broken, and may have suffered internal injuries.

He is a grand son of Centre county's oldest woman "Grand-ma" Barger aged 104 years.

LATER—Young Barger died Friday at half-past ten o'clock, while the doctors were dressing his limb. It was then discovered, upon a more complete examination, that most all the ribs on both sides were fractured and that evidently the lung had been penetrated by a broken bone, as there was considerable hemorrhage.

Easier to Get Married.

Our readers may not be aware of the fact that at the last session of the legislature an amendment was passed to the marriage license law, which was signed by the governor on June 18. The amendment makes a marriage license now good in any county in the state, instead of simply in the county of issue. The party performing the ceremony must make the return to the office who issued the license. It would be well for clergymen and others authorized by law to perform marriages to make a note of the above fact, as there is a heavy fine for a failure to properly report within thirty days all marriages performed. The act went into effect at once In all other respects the law remains as it was.

A Big Catch.

Frank Bradford, station agent at this place will carry off the laurels for the biggest catch of trout made in about two hours' time. Just before the close of the season Frank went into the Seven mountains, near Pat. Garrity's to try his luck and in about two hours' time had succeeded in hauling out 113 fine trout. As the trout season was at its close Frank did the generous act and made a feast of his trout, to which he invited some of his friends, and the supper of trout so deliciously prepared by Mrs. Bradford, was heartily enjoyed by those invited to dine with them.—*Reporter.*

New Evang. Churches.

The new church of the United Evang. Church, near Tusseyville, is nearing completion and mechanics are at work on the steeple, and it will be dedicated about the beginning of September.

At Loganton work begins next week on a new brick United Evangelical church, and it is expected to be ready for dedication by thanksgiving week.

At Swissdale. Clinton county, the foundation walls for a new United Evangelical church are completed and the building will be ready for dedication early in October.

Useful Suggestions.

Perhaps there may be lamps to clean among your duties. If so, perhaps you would like to learn that if a new wick, before being used, is soaked in vinegar and allowed to dry, it will never smoke. And that your chimneys should never be washed, but rubbed clear with a cloth dampened with alcohol. When your burners get black and sticky, carry them to the kitchen, pour vinegar into a pot add a tablespoon of salt and leave the burners to boil in this. They will come out nearly as fresh as new.

Struck by a Cyclone.

A few evenings ago a tornado visited a farm of Harry Hoover, in Union township, uprooting trees and doing considerable damage. It blew the roof off of a large barn, carrying it one hundred yards, and moving the barn twelve inches off the foundation. A section of the roof 18 feet square was carried the distance of 500 yards into a neighbor's corn field. The storm lasted only ten minutes but it was most terrific while it lasted.

Trusts to Providence.

An old farmer in speaking about the crops, said: "I never worry over prospects. I have lived a great many years and always find that things even up pretty well. When dry weather threatens the growing fields disaster, the Lord always comes in on the home stretch with his rain and sunshine. I have always trusted in Providence and was never very much disappointed.'

Death of Philip Musser.

Philip Musser, an old resident of Haines township, this county, died on Wednesday and will be buried to-day. He was aged about 67 years. We have not been able to obtain the circumstances connected with his death at the time of going to press.

Unusual Low Rates to Niagara Falls.

On Tuesday, July 30th, '95, the Beech Creek Railroad will sell special excursion tickets to Niagara Falls via Clearfield and the B. R. & P. Ry. The tickets will be good to return from Niagara Falls until August 3rd and from Buffalo until August 8th, that is, returning, stop-off can be made at Buffalo, the Queen City of the Lakes, until August 8th. Special train from Clearfield 11.20 a. m, July 30th, arrives at Buffalo at 8.00 p. m. and Niagara Falls 9.00 p. m. This excursion in connection with the numerous side trips that can be taken, affords a most excellent opportunity for a ten days outing.

The following low rates are named for the trip :—

Jersey Shore	$5.00	Morrisdale Mines	$4 40
Youngdale	5 00	Wallaceton	4 20
Lock Haven	5 00	Woodland	4 10
Mill Hall	5 00	Mitchells	4 25
Beech Creek	5 00	Oianta	4 25
Snow Shoe	5 00	Mew Millport	4 25
Gillintown	5 00	Kerrmoor	4 25
Peale	4 85	Gazzam	4 25
Munson	4 50	Bower	4 25
Philipsburg	4 40	Mahaffey	4 25

Passengers east of Clearfield will take Beech Creek train No. 33 ; passengers west of Clearfield should take train No. 30.

For further information apply to Beech Creek Railroad ticket agents.

A Jolly Set of Campers.

Four Bellefonte boys—Ed Harris, Ed Hoy, Tom Beaver and Fred Blanchard—passed through our town on Saturday in a camping wagon drawn by Tom Beaver's king team. The boys started out from Bellefonte several weeks ago on a camping expedition and have been to Lewistown, Harrisburg, Lewisburg, Lock Haven and up through the Bald Eagle valley. They were going from here to Clearfield and back to Bellefonte by way of Winburne and Snow Shoe. They were in excellent health and spirits and were having a perfectly grand time. Tom Beaver is ex-Governor Beaver's son, Harris is a son of Banker John P. Harris, Hoy is a son of the lamented Judge Hoy and Blanchard is a son of the late Edmund Blanchard.—Philipsburg *Ledger.*

We will just add that the young men have all returned home feeling a good bit better for their novel outing.

Col. Quay and the Truth.

Senator Quay's familiars are the people to whom he is indebted for his false position in the daily newspapers and the multiplication of myths concerning himself and the incidents of the campaign. Every paper, its Republican or Democratic that is supporting him is trying to throw dust in the eyes of their readers concerning the results in Lackawanna County. Every one of them claims the delegates for Hastings for Chairman of the Convention, for Quay for State Chairman. Col. Quay himself said yesterday at Pittsburg: "The contest was between the Scranton and Connell factions and the latter appears to have won, the delegates therefore are likely to vote as Mr. Connell desires."

Col. Quay knows very distinctly how Mr. Connell desires that these delegates shall vote. They will not vote for him for State Chairman.

Threw His Wife From the Train.

Pittsburg, July 19.—At 12.30 o'clock this morning while the Wall accommodation train was approaching East Liberty station on the Pennsylvania railroad, Mary Prudan, who lives at 135 Second avenue, was thrown from the train by her husband, Harry Prudan. The train was running very slow and the woman escaped with slight injuries. She came to the city on a street car and reported the case to the police this afternoon, but no arrests have been made. Mrs. Prudan says she cannot account for her husband's actions. Prudan is an employe of the Westinghouse Air Brake company. The affair is surrounded with considerable mystery. Prudan and his wife, it is said, do not live together. She is 19 years old.

An Able Speaker.

Rev. J. A. Bright, of Topeka, Kansas, who will deliver the principal address at the I. O. O. F. picnic, at Hecla Park, on Saturday, is highly spoken of. Read the following:

But it was around the anniversary address of Grand Secretary J. A. Bright of Topeka; that the principal interest of the occasion centured. Mr. Bright is one of the most prominent members of the order in the state, and his address yesterday afternoon was pronounced by all his audience as one of the finest ever delivered in the city.—Minneapolis Kan. Messenger, April 26, 1893.

July Sociable.

The July social, by the ladies of the Lutheran congregation, will be held Thursday evening, July 25th, at the home of Samuel Mulbarger, East Curtin street. Refreshments consisting of chicken and waffles, ice cream, cake, oranges and bananas will be served. Supper served from 6 o'clock until all are satisfied. Everybody is cordially invited to come and spend an evening pleasantly on Mr. Mulbarger's lawn.

The parades of the coming Labor day will be imposing demonstration in all parts of the anthracite regions.

Science Aiding the Farmer.

Science rendered an important service to agriculture in the discovery of the bacilli for infecting chinch bugs. The discovery was by a Kansas man. The Kansas farmer, like his brother in every other State, was slow to believe it. His doubts held him back. Meanwhile the enemy to his crop was advancing. Before it arrived in force the wheat had been cut, and so an attack was made upon the corn. The farmer turned out to resist it, but the only means of resistance he had were ineffective and costly. He resorted to the infection, and now believes it. During the last few months thousands of packages of it have been sent out to different parts of Kansas, Missouri and Oklahoma. Each consisted of infected bugs, which, when liberated, spread among the others, infecting them, and destroying them rightly.

In due time man will conquer all the insect enemies of his crops by means which science will furnish, and when he does the saving will be immense. Farmers in many States could have paid off their mortgages with what these pests have robbed them of in a few years.

And ultimately the effects of drouth on agriculture will be overcome. The rain maker was not a success, and may never be, but irrigationon a grand scale will be. More has been accomplished by it already than the average reader has any conception of. There are spots in the arid west which can be watered at will, and there the fear of drouth is the farmer's least ill.

From both these causes, insect pests and drouth, agriculture has often suffered sorely, but as it is said in law that there is no wrong without its remedy, so in industry there is no difficulty which may not be overcome by patient effort and the use of the devices which science and experience suggest.

The Students Standard Dictionary.

The vocabulary will be richer by many thousand terms than that of any other similar Dictionary in English, and it is the only School Dictionary that has all the words in the English classics prescribed for study in the schools. Definite exactness, in contrast to synonymic looseness characterizes the definitions of the work, as in the Standard Dictionary, which is one of the original features that has won for the complete unabridged work such unbounded praise. Synonyms, antonyms, and etymology are given in extent and quality beyond what are given in any other School Dictionary. For pronunciation, this book has followed the Standard in using the *Scientific Alphabet* which has been prepared with great care by the leading philologists of the English-speaking World, and which is endorsed by the Philological Association of America and the Philological Society of England. The work has also full advantage of the decisions of the "Committee of Fifty" leading philologists, etc., who determined the pronunciations on disputed points in the Standard. It has, therefore, an exact, world-wide comprehensive uniformity for this most important feature of our language—its correct pronunciation. The Appendix of this Student's edition is made also on the plan of the parent work.

Published by Funk & Wagnalls Company, of No. 30 Lafayette Place, New York

Work not Talk.

Times never boom so that a lazy man will prosper. An idler can inherit wealth and it slips through his fingers until in a few years he is a ragged loafer. No man or set of men can sit around on the stool of doing nothing and make times better by theorizing on the financial question or discussing the rapid transit on which the country is going to the "demnition bow wows." It is true there are certain times when the conditions are better for general prosperity than at others, but as a main proposition an individual's prosperity depends solely upon himself and a country's prosperity upon the industry and frugality of its people. No legislation can alter this fact; neither can the enactment of any law make a professional loafer prosperous or deep an industrious, economical man from succeeding in life.

This is a lesson the people should learn. Success in the various occupations in life depends upon any legislation congress may enact. When people learn to work and think more and discuss politics less an era of prosperity will dawn upon this fair land that will surprise even the most cynical curbstone prophet.

Bank Clerks Indicted.

Erie, Pa., July 19.—In the United States district court this afternoon George N Sewell, an Erie counterfeiter, was convicted. A jury was called for the trial of the Maloney and McNierney gang of counterfeiters from Union City to-morrow and that will end the session's business. The court has convicted thirteen violators of pension, postoffice and currency laws.

The most important matter transacted to-day was the indictment of three clerks in the Second National bank of Altoona for making false entries. The clerks under indictment are H. L. Claybaugh, Harry A. Garned and Mayberry Miller, and are at large. Their alleged false entries were over $20,000. The case will be tried in Pittsburg.

DIRECTIONS for using CREAM BALM

Apply a particle of the Balm well up into the nostrils. After a moment draw a strong breath thro' the nose. Use three times a day, after meals preferred, and before retiring.

CATARRH

ELY'S CREAM BALM opens and cleanses the Nasal Passages, allays pain and inflamation, heals the sores, protects the membrane from colds, restores the senses of taste and smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at druggists or by mail.

ELY BROTHERS, 56 Warren St., New York

COLD IN HEAD

The Montreal Bank Failure.

The failure of the Banque du Peuple at Montreal has a partl ular interest just now, because of the test it will apply to various details of the Canadian banking system which has lately been more closely studied than before by American financiers as a possible model for imitation in this country. The failure itself is important. Business affairs in Canada were very much strained by the recent period of commercial depression, but the stability of their banking system, with its freedom from any complication with the public treasury, was largely instrumental in averting the panic that struck us in the United States under the operation of our silver laws.

The recovery, however, has been so protracted that the banks have had to carry many loans that ought before now to have been repaid, and it is probable that the failure of the People's Bank comes as a sequence of past misfortunes rather than as a precursor of new. At the same time it is reasonably certain to be accompanied by other failures, and its effect upon business north of the St. Lawrence cannot be slight.

The reassuring part of it is that no one seems to anticipate any direct loss from the failure of the bank. There can be no loss to the note-holders, for Canadian bank notes are the first lien upon the capital and resources of the bank, and are entirely and abundantly secured, with distinct provision for their redemption. And the impression at Montreal seems to be that the depositors also are well secured, and that any loss from the failure will fall entirely upon the stockholders of the bank. This is much more than can be said of the average failure under our national banking system, and for this reason the detailed report of the affairs of the Banque du Peuple will be studied with peculiar interest.

Old Fellows Picnic.

On Saturday, July 20th, the Nittany Valley Lodge No. 1054 I. O. O. F., will hold their second annual picnic at Hecla Park. Preparations have been made for the reception of a large number of people and a general good time is assured. Arrangements have been made with the Central road to run trains as follows:

Leave Bellefonte at 7.40, 9.00 and 11.00 a. m., 3.33, 6.30 and 8.15 p. m. Leave Mill Hall at 9 12 a. m., 12.30, 5.05 and 9.37 p. m. Two trains will leave the Park in the evening at 10.45 p. m., one for Bellefonte and the other to Mill Hall.

j17 3t.

Around the State.

There are fifteen men in Luzerne county jail awaiting trial and charged with murder.

Three girls and two boys were sent to jail in Lebanon last Saturday for gross immoralities.

The aggregate sales of candies in all the cities of the state do reach hundreds of tons weekly.

There are few towns in the state of any importance where retail stores do not close at 6 p. m.

Wheelmen's corps are being formed in many parts of the state and in their aggregates compose a great army.

WASHINGTON LETTER.

Washington, July 22, 1895.

From our Regular Correspondent.)

Caesar, Cromwell and Napoleon were in their day considered powerful, but the power exercised by them over the expenditures of their respective nations was not greater than that now claimed for a subordinate official of the U. S. Treasury. According to his claim, the Comptroller has the authority to refuse payment of appropriations made by Congress and approved by the President, whenever he believes, or makes a pretense of believing, that said payment would be unconstitutional, and the claimant has no redress or appeal, except to enter suit for the amount claimed in the Court of Claims. The first notice of this remarkable claim of authority was given several days ago when a voucher for about $12,000, in favor of the Oxnard Company, of Nebraska, manufacturers of beet sugar, was held up by the Comptroller, and the company notified that the Comptroller would hear argument as to the constitutionality of the Act of Congress appropriating $238,000 to pay the bounty on beet sugar manufactured before the repeal of the bounty clause of the McKinley law. The Comptroller says he believes the sugar bounty law to have been unconstitutional, which is a little queer, in view of his having allowed $12,000,000,000 or thereabouts, to be paid out under that law during the fiscal year ending June 30, 1894, without a protest. The real facts in this business are well known. Comptroller Bowler is merely a figure head, who repeats his lesson just as it is taught to him. In addition to the money appropriated for the beet sugar makers, there was $5,000,000 appropriated by the last Congress to pay deferred sugar bounties—they will be deferred sure enough, it seems. This money the administration doesn't wish to pay out until a Republican Congress shall have put more money in the National Treasury. Comptroller Bowler has been swelled up by praise and made the tool of smarter men to carry out this idea. The same tactics are, according to current report, to be used to defer payment on the contract made with the International Steamship Company for the transportation of mails to Europe. This contract was made by Mr. Wanamaker, when he was Postmaster General, under an Act of Congress, and includes the use of the steamships owned by the Company as government cruisers in time of war.

That mysterious Cabinet meeting has naturally been the subject of much gossip and of numberless rumors. That the Spanish minister, who came to Washington about the same time that Secretary Olney did, if he did not accompany him, was the cause of this Cabinet meeting is certain, and that it discussed the Cuban revolution. All else is conjecture, owing to the air of mystery with which those who attended the meeting have since surrounded themselves, although it is difficult to imagine any good reason why there should be any secrecy as to the position this government occupies towards either Spain or the revolting Cubans. Rumor says the Spanish minister went so far as to ask that those American editors who are disposed to sympathize with the Cubans should be muzzled by the Secretary of State. The administration would seem to have about all the muzzling it can attend to, in trying to shut the mouths of the Silver democrats, without tackling the editors of the country, although Secretary Olney is probably fully in accord with the idea of a press censorship.

The Populists are much chagrined over the latest phase of the reorganization of the Senate at the beginning of the coming session of Congress. They have been confidently counting upon being asked to join the republicans in the reorganization and, of course, receiving a liberal share of the Committee chairmanships and of the Senate patronage. It has lately come out that many of the Republican Senators would much rather not reorganize the Senate than to do it with the assistance of the Populists. This wasn't pleasing to the democrats, who do not wish to retain control of the committees without the power to control votes enough to carry anything through, and some of them have intimated to the Republicans their willingness to vote for a reorganization that will divide the chairmanships and the patronage between the Republicans and the Democrats, leaving the Populists out altogether. No one has authority to accept this or any other proposition concerning reorganization until it shall have been submitted to a caucus of Republican Senators, but all the same its consumation is probable enough to have destroyed the extensive air castles which the Populists have been building on the belief that they would hold the balance of power and could dictate their own terms for the reorganization of the Senate.

ANOTHER QUAY DISASTER.

His Followers Badly Beaten Again on a Battle-Ground of His Own Choosing.

The result of the primary election in the First district of Lackawanna will give the organs of Senator Quay's "campaign of assassination" new cause to cry out for a compromise. Senator Quay deliberately selected Lackawanna as the battle-ground for a test of strength between himself and the Governor's friends. He took the field in person, went into the county with trumpet and drum, and spent the better part of a week of his time and some $4,000 of money. His newspapers pictured his triumphant progress and invited the whole State to fix its eyes on Lackawanna, and watch "the old man," "the greatest political general of this country," etc., etc., bury the opposition deeper than any Lackawanna coal mine. Well, the funeral came off on time, but it wasn't the Administration people who furnished the corpse. Three separate primaries were held in three districts, on separate days, and the best the Quay candidates could do was to get beaten worse than two to one in the First district. In the Second and Fourth districts they were beaten even worse.

The net result of Senator Quay's invasion of the hard coal region is as disastrous as that of Lee's invasion of Pennsylvania. On the picked battle-ground of his own choosing, he has lost six of the seven delegates to which Lackawanna is entitled, with the seventh still to elect. His organs which were lately predicting the rout of the Hastings and Gilkeson forces there, are now driven to the pitiful expedient of claiming that the delegates he tried so hard to defeat are not anti-Quay men, at all, from which we are to assume, presumably, that Senator Quay went to the anthracite country entirely for his health, and spent money just to help along local trade.

If the Quay men are going to be in this fight at all when the convention meets, it is high time their campaign began to show some results. So far, in every county that has voted, while Andrews and Leach are running a claim agency, the other fellows are running away with the delegates.

The New Superior Court.

The constitutionality of the new Superior Court, lately created by the Legislature as an appellate tribunal, has been questioned because the fifth article of the Constitution confers appellate jurisdiction only on the Supreme Court of the State.

The first section of the new article on the judiciary in the new fundamental law provides for a Supreme Court, Courts of Common Pleas, Oyer and Terminer, Quarter Sessions, Orphan's Courts and Magistrates' Courts, and it authorizes "such other courts as the General Assembly may from time to time establish."

It is true that the Constitution confers appellate jurisdiction only on the Supreme Court of the State, but it does not limit appellate powers to that tribunal. It simply confers appellate jurisdiction along with other powers, some of which are exercised by other courts, but does not prohibit the extension of appellate jurisdiction to other judicial tribunals.

There is an expression of limitation in the twenty-sixth section of the article relating to the judiciary in these words: "The General Assembly is hereby prohibited from creating other courts to exercise the powers vested by this Constitution in the Judges of the Courts of Common Pleas and Orphans' Courts." The limitation, it will be seen, does not extend to appellate courts, and there seems to be no doubt whatever that the creation of the new Superior Court is entirely in accord with the fundamental law.

A Baby Elephant Girl.

A baby girl has just arrived in the little town of Southwest City, Mo., who will be the biggest woman on earth if she lives.

The very day she made her appearance in the world the mammoth youngster tipped the scales at 63 pounds. She is now, says the New York Recorder, more than 68 pounds in weight and measures thirty inches around the waist. Her arms are ten inches in circumference and her hands and feet are as large as a man's.

This champion fat baby is the daughter of T. J. Matthews, a farmer who lives in the Cherokee Nation. He is a small man, so is the little girl's mother. If the fat girl keeps on growing as rapidly as she has since her birth she will soon weigh more than the combined weight of her papa and mamma. Just the same she is as happy as she is big.

Every boro ordinance must be advertised before it is lawful.

HE CANNOT STAND MANY MORE.

Senator Quay is Evidently Rowing Against a Tide That is too Strong For Him.

Philadelphia, July 19.—The effect of the four succcessive Quay defeats in Lackawanna and Sullivan Counties, both of them Quay counties for many years, taken with his absolute failure to win a delegate so far anywhere, while claiming that he would carry the State outside of Philadelphia and Pittsburg almost solid, is taken by observing politicians here to forecast his early retirement from the battle he has provoked. Neither can he unload Andrews, unpopular as he is, because Andrews is to take charge of the organization for him if he wins, and serve as the actual chairman of the State Committee. He cannot unload Andrews, odorous as he is with reminiscences of the Delamater scandal, because his effort to make leadership in the party mean ownership of it has driven away from him such self-respecting Republican leaders as General Frank Reeder Attorney General McCormick, C. L. Magee, David Martin and others whom he used to depend upon to manage his campaign.

But even his friends here, who take their inspiration from Col. McClure, and Col. Singerly, acknowledge that another week like the last, with a succession of defeats instead of victories, will force Quay to call off his fight and let the party have peace.

English Election Mobs.

The English nose, and especially the conservative style, has been wont to take the tip-tilted turn of scorn at the disorder and degradation of politics in the United States. There is no disputing that our politics have some peculiar and undesirable characteristics; but as compared with the manufactations of English political zeal they take on the aspect of quiet and praiseworthy methods.

Take a few specimens from last week's general elections which do not seem to have been anything out of the ordinary. A member of the recent Liberal Cabinet while riding with his wife in a carriage was assailed and petled with mud and other filthy missiles. In another case, a parade in the interest of one candidate was assailed by a crowd of vagabonds hired for the purpose by his opponents, and compelled to flee for their lives. Another candidate while addressing a public meeting was struck in the eye by a stone. Still another was attacked and pursued for miles, while passing through an antagonistic town, with ladies in his carriage. The blackguardism was not confined to one party. The Liberal leader and the literary apostle of Tory Jingoism were both given the same treatment, and each case showed that even women are not safe from the ruffianism of an English mob.

In the hurly-burly of American campaigns there is a good deal that is cheap and shallow; but the idea that elections are to be won by mobbing opponents has died out since the days of the slavery fight. Opponents are given an opportunity to be heard. Age, position and sex are granted by common consent the courtesy of order and civilization. If the populace in America committed such acts of hoodlumism a are reported in numerous boroughs of England, the English papers would hold them up as an evidence of the low tone of American politics. But as they happen to take place in England, they are treated as indications of political zeal.

The political of this country have a great many features that should be improved. But between them and the practically unchecked blackguardism that is rife at English elections, we prefer the American type.

A High Priced Calf.

The famous Jones county calf case, involving the ownership of a $2 calf, which has been in the courts of Iowa since 1878, is still in litigation, the latest phase of the suit having been the decision by the Supreme Court of that State by which the costs of $2686.84 having been charged to the defendants. The original parties in the dispute have long since passed beyond earth's pasture's, and the original calf has doubtless contributed its skin to cover many of the law books arrayed in the controversy. Nevertheless, the animal has furnished sustenance for one generation of attorneys, and, metaphorically speaking, it will probably continue to be milked by another. The Jones county calf case is a pretty good exemplification of the delays of the law—good enough to be stuffed as an object lesson.

The first of Anthony Hope's new series of Zenda stories, in McClure's Magazine for August, reciting a heroic love passage between the beautiful Princess Osra and brave Stephen the Smith, is most charming. "The girl was young, and the dream was sweet," and the story is in full accord with these attractive conditions. Miss Tarbell supplies a very interesting account of Bishop John H. Vincent and his work in founding and developing the Chatauqua Assembly, and also of the wonderful growth and usefulness of that institution. Numerous portraits and other pictures accompany the paper. The life of the circus performer, as it shows itself behind the scenes, is the subject of an illustrated article by Cleveland Moffett. The romantic story of the robbing of the Northampton (Mass.) Bank of upwards of a million dollars in money and securities, and of the long pursuit and ultimate conviction of the robbers, is related from the records of the Pinkerton detective bureau, and many other articles of absorbing interest.

30 Lafayette Place, New York.

A REIGN OF TERROR.

Negro Churches in Florida Raided By White Men.

Live Oak, Fla., July 22.—Rev. D. W. Gillislee reports a reign of terror among the negroes of Lafayette and Taylor counties. He says their churches are being raided by white men, congregations dispersed and pastors driven away. Mr. Gillislee is presiding elder of Live Oak district of the Florida conference of the African Methodist Episcopal church. The counties mentioned are in this district, and he recently returned from an attempt to fill his appointments. He says he was preaching in Lafayette county to a large congregation, when a crowd of armed white men came into the church and stationed themselves near the pulpit. The leader of the gang asked Mr. Gillislee: "How long do you expect to remain in this country and live?"

Then the whites began to shoot, and Gillislee and the congregation ran out in a panic. Gillislee went to Bramford, ten miles distant, in Suwanee county. He next went to Taylor county, which adjoins Lafayette on the west, but was again driven out. While preaching at night, he says about twenty white men came in and stationed themselves about the pulpit. Gillislee was frightened, but kept on preaching. Finally the mob shot out the lights. Gillislee and the negroes ran out, many being trampled on. The mobs so far appear to have shot no one, their object seeming to be to create terror.

Gillislee says the negroes are frightened nearly to death, and are leaving rapidly, many deserting their property. The preacher seems unnerved by his experience and will never go to Lafayette or Taylor again. His headquarters are in Jacksonville, and he has a good reputation. Lafayette and Taylor are the counties where so many negroes have been lynched. In Lafayette there have been over a dozen lynchings in the last few months.

MR. GLADSTONE has just been reading the life of Sonya Kovalevsky, which is published in this country by The Century Co. He was much impressed with the book, and has written as follows to Mr. Fisher Unwin, the London publisher:

"The Biography has also reached me, and at once beginning to peruse it, I have found it a volume of extraordinary interest. It is, in itself, a large chapter of human psychology, with something of heredity included. The two works [Sonya Kovalevsky's 'Recollection of Childhood,' and the "Biography" by the Duchess of Canjanello, published in one volume] also present a great deal of salutary warning."

You cannot be well unless your blood is pure. Therefore purify your blood with the best blood purifier. Hood's Sarsaparilla. 7-25-1t

The Beauty of Health

Features don't matter so much. Most any features will do if the complexion is clear, the eyes bright and the lips rosy. Hearty, healthy wholesomeness is better than mere beauty of features. A face full of the glow of good health—full of the kindliness and good humor that health brings, is bound to be an attractive face—a face that will make friends. The face tells the story of the whole body. "Murder will out"—and so will "female weakness" and nervousness and other disorders peculiar to women.

If there is a drain on the system and strength, the record of it will show in the face. If there is nerve nagging "bearing-down" pains, dragging and pulling at the most sensitive organs in a woman's body, the face will show it. Abused nerves draw lines of care and worry on the face. Nervous prostration writes its warning on the face long before it comes. Sleeplessness, nervousness and debilitating drains make more wrinkles than age.

Nine-tenths of the sickness of women comes from some derangement of organs distinctly feminine. Nine-tenths of this sickness can be cured and avoided by the use of Dr. Pierce's Favorite Prescription. There is nothing miraculous about the "Favorite Prescription"—nothing supernatural.

It is the result of rational thought and study applied to medicine.

It has been prescribed by Dr. Pierce for over 30 years. It has made thousands of women healthy and happy, and has brought joy to thousands of homes.

In "female weakness" it acts directly and strongly in healing and strengthening the parts that are most severely tried. It clears out impurities and promotes regularity at all times.

EXECUTORS NOTICE.—LETTERS TESTAMENTARY upon the estate of Mrs. E. J. Wilson late of Stormstown, Centre County, Pa., having been issued to the undersigned, all persons knowing themselves indebted to said estate are hereby notified to make immediate payment, and those having claims against the same to present them duly authenticated for settlement.

R. A. WILSON, Executor,
6-13-6t Tyrone, Blair County, Pa.

ESTATE OF JOHN FETZER, DECEASED. Letters of administration on the estate of John Fetzer, late of Boggs township, Centre County, Pennsylvania, deceased, have been granted to Clement Dale, residing in Bellefonte Borough, to whom all persons indebted to said estate are requested to make payment, and those having claims and demands will make known the same without delay.

CLEMENT DALE,
5-16-6t Administrator.

Rose L. Pierce, vs. O. L. Schoonover.	In the Court of Common Pleas of Centre County, No. 337 April Term, 1886. In equity.

The undersigned master appointed by said Court to hear and pass upon the exceptions filed to account and ascertain the balance due O. L. Schoonover under decree of Court heretofore made, will meet, for the purpose of his appointment, all parties in interest at his office in the borough of Bellefonte on Thursday, the 1st day of August, 1895, at 10 a. m. Parties interested will please take notice. JOHN KLINE,
7-11-3t Master.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY,
Boston, Mass.

WHAT IRON WILL DO.

IRON IS NATURE'S OWN TONIC.
Stimulates the appetite and produces refreshing sleep.
GIVES VITAL STRENGTH TO NURSING MOTHERS.
Checks wasting diseases, stops night sweats, cures incipient consumption.
Increases strength and flesh.
IRON MAKES RED, RICH BLOOD,
Promotes healthy lung tissue.
Will give the pale and puny the rosy cheeks of youth.
IRON CURES ALL FEMALE COMPLAINTS.
Makes strong men and women of weaklings.

GILMORE'S IRON TONIC PILLS
Cure all Wasting Diseases and their sequences,
BRONCHITIS, CONSUMPTION, &c.
They are neither styptic nor caustic, and have no coagulating effect on the contents of the stomach or its lining; consequently do not hurt the teeth or cause constipation or diarrhœa, as do the usual forms of Iron. 10 days treatment 50c, pamphlet free. If not kept by your druggist, address
GILMORE & CO., CINCINNATI, O.

What a Good Newspaper Does.

A newspaper is the greatest help to the growth of a town that can be. It is a standing advertisement which always attracts. It gives more free advertisements and explanations of the place than all others. It never lets pass a good opportunity to advocate the interests of its home enterprises. It helps all the churches, and never fails to speak out for its schools; resents all insinuations against the character of the citizens and industries of the town, and lives but to benefit the community. To repay its untiring efforts it asks the support of the people, not in a begging manner, but as a recompense for its labor. It is entitled to a livelihood, because it gives more than it takes. It only asks for its rights and those it should have.

Sugar Valley Items.

The County Journal says: Harry E. Boone, of Loganton, the blind son of J. H. Boone, is a great Bible student. He has a special Bible of his own, consisting of 11 large volumes, printed with embossed characters, and reads it with great precision. Sunday afternoon he read an interestesting scriptural lesson before the Alliance society of the Lutheran church.

L. M. Karstetter and L. D. Miller closed the fishing season on Saturday by catching 124 trout, the largest measuring 13 inches. They caught altogether this season 2705 trout.

Jesse Motter's three boys had a fight with a ground hog Tuesday. The little animal fought desperately for its life, and would have in all probability whipped al three boys, had not their dog interfered and killed it.

Close Figuring in Kansas.

It is said that a man who won't buy a paper because he can borrow one has invented a machine by which he can cook his dinner by the smoke from his neighbor's chimney. This same fellow sits in the back pew in church to save interest on contributions, and he is always borrowing a ride to town to save wear and tear on his own horse flesh. Yes, you know him. He's a first cousin to the man who never winds up his watch for fear of breaking the spring. He undoubtedly was a near relative of the man who went into the back yard during a recent a recent cold snap, soaked his hair in water, let it freeze, and then broke it off in order to cheat the barber out of a hair cut.—Topeka Daily capital.

Mr. Case's Promotion.

Mr. George M. Case, General Passenger Agent of the A. & P. C. R. R., has been promoted to the office of General Superintendent of the same road, vice Mr. Geo. W. Forsythe resigned. Mr. Case has been a most faithful, industrious servant of the road and deserves the promotion. He is qualified in every way for the new office and we believe without disparagement to Mr. Forsythe that the change will be beneficial to the road. He bears his new honors very meekly and gracefully. Mr. Geo. M. Good is his Chief Engineer and Mr. James Denithorne Master Mechanic.

There is a lesson in the crushing Liberal defeat in the British elections which should be heeded by political parties the wolrd over. The folly of stringing together a miscellaneous lot of "reform bills" in the hope of thereby welding a host of Parliamentary groups into a compact majority could not have been better illustrated than by the recent disaster suffered by the Liberals at the polls. From present appearances the Scotch constituencies have declared their opposition to the proposed Liberal legislation for Scotland; the Welsh have rejected Disestablishment of the Church of Wales, and the large manufacturing districts, in which the workingmen are in a majority, have expressed their disapproval of the measures passed and of those proposed to be enacted by the Liberals in the interest of labor. A hotchpotch of sectional and class legislation does not constitute a political platform, nor does a coalition of heterogeneous political faddists make a political party. To arouse enthusiasm among the electors requires an issue as broad as the land, and one which appeals directly to every voter.

IS NOW BETTER.

Taking United States Bonds to London a Healthy Occupation.

Washington, July 23.—Mr. W. E. Curtis, assistant secretary of the Treasury, was at his desk to-day after an absence of six weeks in connection with the delivery in London of 30,000,000 United States bonds to the Belmont Morgan syndicate. Much improved by his trip, Mr. Curtis to-day to a United Press representative talked interestingly of his visit abroad and the impressions received.

"The business in London," said he, "was successfully completed, and I am glad to return to my own country. I found the feeling regarding investments in United States stocks, bonds and other securities, both public and private, better than I had expected. There is a very large amount of money in England awaiting investment and I am satisfied that if the owners were assured that the value of what they bought would not be reduced by legislation regarding our currency, that large amounts would flow to this side of the water, and an era of great prosperity would follow in this country.

"The political excitement attendant upon a change of government was most marked, and the dissolution of parliament and the campaign for the new elections were very interesting to an outsider. A point, however, which struck me very forcibly was, that the change of government made no change in the daily business of the departments, and though I was in the treasury the morning after the announcement of the new ministry taking office, there was no attendant line of office seekers and the heads of the bureaus and divisions, had no anxiety as to any prospective decapitation. In fact, I was told by a member of the new government that the total patronage, including, of course, the highest officers, only amounted to about sixty places, and one of the hardest problems the conservative leader had to deal with was a fair division of these few places among those considered entitled to them."

Crack Marksman in Trouble.

Reading, Pa., July 23.—Robert Welch the crack pigeon shot of Philadelphia, held up two officers who attempted to arrest him here last night and gave them a lively reception. Welch, in company with a woman, registered at the Hotel Penn as R. Welch and wife, Philadelphia, and was having a good time generally. When Officer Clous, of this city, arrived at the hotel with the warrant in his pocket Welch and the officer returned to his room. After the warrant was read Welch suddenly drew a revolver and covered Clous. Detective Martz, who was in company with Clous and who was waiting below, becoming anxious at Clous's long stay went up stairs. When he entered Welch's room he was also covered. Finally Welch made a dash for the door, when, after a lively tussle, he was seized by the officers. He was afterward turned over to Philadelphia officers who took him to that city on a late train. The charge was desertion and adultery and was issued at the instance of his wife.

Ended Her Own Life.

New York, July 23.—The dead body of a beautiful young woman, who had ended her life by sending a bullet into her brain was found lying in the woods at the northern part of Washington heights this morning. There was a bullet wound in her right temple and a new revolver lay between her body and her left arm, where it had dropped from her right hand, which lay across her breast. Her face around the wound was badly blackened.

A careful search of the body failed to produce the slightest clue to lead to the young woman's identity. She was about 19 years old, five feet four inches in height and weighed about 110 pounds. She had thick brown hair, dark complexion, brown eyes, pretty features and a slight figure. Her hands were small and showed no signs of work. Her clothing was of fine quality and appeared to be new. The body was removed to the Harlem morgue.

SECRETARY SMITH will begin his campaign for sound money this week at Gainesville, Ga. He will make three speeches, and will present his views in opposition to those which have heretofore met with little contradiction by public speakers in the Empire State of the South. He says that it is a grave mistake to assert that the Southern people are ignorant and inaccessible to argument. "If the tariff and money questions were not agitated on the stump in former years, it was because another question—the question of home rule and the right to enjoy in peace the benefits of their labor—overshadowed all other issues." The Secretary of the Interior declares that Georgia is a State of thinking and reading men—a community in which discussion has a fair jury, and one in whose verdict he has the greatest confidence. A thorough and clear presentation of the currency question to the Southern people can have only one result; and Secretary Smith's mission among the people of his State is to prove beyond the possibility of a doubt the wisdom of that opinion.

Young or middle-aged men, suffering from nervous debility or kindred affections, should adress with 10 cents in stamps 663 Main street, Buffalo, N. Y. 7-25-1t

A few days ago John Callfisch shot an eagle near his mill in Clinton county. It was brown in color and measured from tip to tip seven feet and one inch.

ST. JACOBS OIL is the Perfect CURE for

NEURALGIA

WITHOUT RELAPSE, COLLAPSE, MISHAPS or PERHAPS.

THOSE RESTLESS INDIANS.

Prospectors Are Being Driven In From the Mountains by Them.

Cheyenne, Wyo., July 23.—The first advices of an authentic nature from the scene of the Indian troubles in the Jackson's Hole region reached Governor Richards to-day in the shape of telegrams sent by courier from Marysvale, Wyoming, to Market Lake, Idaho, from Adjutant Gen. Stitzer, of the governor's staff, who was sent into the region to investigate the troubles between the Indians and the whites.

One message, sent Sunday from Marysvale, is as follows: "Scouts who have just come in from the mountains report Indians in force at the junction of Granite Creek and Fall River. All passes available to horses are guarded by Indians. Captain Smith, a prospector, has just come in wounded by Indians. Other prospectors are being driven in from the mountains. Pickets are guarding the various mountain passes to-night. Forces are equipped ready for a march and everybody is armed."

A second message sent yesterday by Stitzer from the Teton basin, near the Idaho-Wyoming line says: "Arrived here on return trip. Settlers in the basin uneasy. It is reported here that many Indians from Fort Hall are leaving to joining them. Letters and couriers have been sent out by the Jackson's Hole settlers, asking for aid and with those who have responded they will go into the mountains to meet the Indians to-morrow. Settlers have given up all hopes of saving crops and are preparing to take all the women and children out of the region.

Governor Richards states that no movement of state troops in the Jackson Hole country will be ordered until further information is received. He sent word today to General Stitzer to report as fully as possible on the situation, particularly as to the success being met with by the Indian police, in inducing the Bannocks, the only known offenders among the Indians, to return to their reservation.

REDUCED RATES TO THE SEA SHORE.

Extremely Low-Rate Excursions via Pennsylvania Railroad.

No other place can compare with Southern New Jersey in seaside resorts, either in point of number or of excellence. Atlantic City is the most popular resort in America, and Cape May, Sea Isle City, Ocean City, Avalon, Anglesea, Wildwood, and Holly Beach do not fall far short of Atlantic City's high standard.

The Pennsylvania Railroad Company, whose constant object is to give its patrons the cheapest rates compatible with good service, has arranged for a series of excursions to the seashore, similar to those which were so popular last season. The next excursion of the series will leave Pittsburg August 1, and the rates will be as stated below.

The tickets will permit of a stay of nearly two weeks, and a choice of either of the seashore points named above will be allowed. A special train of parlor cars and day coaches will leave Pittsburg on each of the above mentioned dates at 8.20 a. m., and the time from other stations will be as follows:—

	Rate	Train Leaves.
Altoona	8.00	12.45 p. m.
Hollidaysburg	8.00	11.03 a. m.
Bellwood	8.00	12.55 p. m.
Clearfield	8.90	9.31 a. m.
Philipsburg	8.35	10.14 "
Osceola	8.25	10.23 "
Bellefonte	8.65	10.09 "
Tyrone	7.65	1.07 p. m.

A special train will leave Market Street Wharf at 7.30 p. m., August 1, for Atlantic City, arriving at Atlantic City about 9.00 p. m., making the run *from Pittsburg to the seashore in twelve hours.* Arrangements have been made for transfer of passengers from Broad Street Station to Market Street Wharf on arrival of special train, or passengers can spend the night in the city and proceed to the shore by any regular train of the following day.

For further information apply to ticket agents, or to Mr. Thomas E. Watt, District Passenger Agent, Pittsburg.

LENOX and Stockbridge are thought of now chiefly for their social prestige and fashionable gaities. But the prominent part these villages have taken in the literary history of the country is shown by Henry Dwight Sedgwick, of Stockbridge, who contributes to the Midsummer Holiday (August) *Century* a chapter of "Reminiscences of Literary Berkshire." Mr. Sedgwick is a nephew of Catherine Maria Sedgwick, and has enjoyed the acquaintance of nearly every one of the many notable literary men and women who have visited Berkshire within the past half-century or more. He brings together a collection of anecdotes and of genial gossip, never before printed, about Fanny Kemble Macready, President Van Buren, Dr. Channing, Rev. Aaron Burr, G. P. R. James, and many others. The article is accompanied by portraits from old prints and daguerreo types, and by Harry Fenn's drawings.

In Other Counties.

Cloyd Beck, a 10 year old Altoona boy, Saturday, on a penny wager, climbed a telephone pole and fell 30 feet to the ground, and from there to the foot of a steep embankment, 30 feet more. He has been unconscious ever since the accident and will die.

Between Birmingham and Union Furnace Foreman Andrew Calderwood Friday morning found five sticks of dynamite with fuse attached, securely placed on the south track. As tramps of the wild west sort have been working in that section it is believed that they were placed by them with the intention of train plunder.

DR. KILMER & CO., BINGHAMTON, N. Y.

Know Hood's Cured

Because It Made Pure Blood.

"I was all run down and could not sleep at night on account of the continuous and severe pains through my body. I had also stomach troubles and catarrh. After taking Hood's Sarsaparilla a short time I commenced to improve, and after using three bottles in all, my complaint entirely left me. I now have an appetite, sleep well and am free from all stomach trouble. I know Hood's Sarsaparilla has cured me, and I cheerfully recommend its use by all woman who are run down and need a building up medicine." MISS ALICE WRAY, W. Bridgewater, Pa.

Hood's Sarsaparilla
Is the only True Blood Purifier prominently in the public eye today.

Hood's Pills easy to buy, easy to take, easy in effect. 25 cents.

NOT A CANDIDATE.

Ex-President Harrison Would Not Take a Re-Nomination.

Old Forge, N. Y., July 17.—Benjamin Harrison has broken the silence as regards the presidency. He has said that under no circumstances will he become a candidate for that office.

These utterances were made last evening in the presence of two of his old Grand Army of the Republic friends. Their names are Congressman Poole, of Syracuse, N. Y., and Joseph L. Sayles, of Rome, N. Y. Congressman Poole came here for the purpose of inviting General Harrison to go to Syracuse on Grand Army Day, which will be during the week of the state fair.

Mr. Sayles is also a Grand Army man and on several occasions talked with General Harrison both in Washington and at Grand Army encampments. In declining the invitation Mr. Harrison slowly began, saying:

"Major I will tell you why I do not care to go to Syracuse at the time you want me to go. If I go anywhere now the candidates for the presidency will say that I am a candidate for that office, and am going for political purposes."

Then with a voice that carried with it all the earnestness and positiveness that is to be found in the general's makeup, he continued:

"I am not a candidate for the presidency, have not been, will not be. I do not want the office and would not accept it."

These are the exact words the general used, and when he had finished talking the question of his going to Syracuse was immediately dropped by Major Poole and Mr. Sayles, who, as another steamer came in view, took leave of General Harrison.

Great care was taken by Major Poole from the time he started for the Harrison camp until he left it to have the newspaper reporters know nothing about his visit, and especially about the conversation that took place.

The New Judges Meet.

Philadelphia, July 17.—President Judge Charles E. Rice and Judges James A. Beaver, Howard J. Reeder, George B. Orlady, John J. Wickman, E. H. Willard and Henry J. McCarthy, of the new superior court met in the city hall to-day and had a social meeting with the judges of the supreme court in the private rooms of the latter.

The superior court judges afterward began the consideration of rules for their government and that of members of the bar in the transaction of the business of the court, the arrangement of the different districts from which appeals will be heard, the terms of the sittings of the court, the method in which the lists of cases should be made up and all the minutiae of the court's proceedings.

The conference began in the morning and was not concluded until late in the afternoon, when the announcement was made that nothing as to what they had agreed upon would be made public until the court would meet at Harrisburg for organization on the 24th inst.

Advance Guard of the Baptists.

Baltimore, July 17.—The advance guard of the great throng of 15,000 delegates and visitors who are expected from all parts of the country to participate in the convention of the Baptist Young People's union of America, which will open its sessions tomorrow, arrived in large numbers this morning. Every railroad station and steamship pier presented a lively appearance as the crowds were welcomed by the numerous members of the reception and registration committees.

The South Carolina delegation was the first to be assigned quarters. Closely following were 1,200 members from Illinois, a good representation from Alabama, North Carolina, Virgina and Rhode Island. Other arrivals came in on regular and special trains from Tennessee, Delaware, West Virginia, Massachusetts, Connecticut, Vermont, Indiana, Missouri, Texas and Ohio.

Broke All Records.

Cleveland, O., July 19.—A special train consisting of an engine and four cars from Pittsburg to Cleveland over the Pittsburg & Lake Erie road, carrying 160 passengers, including Mayor McKenna, about 100 wheelmen and a number of newspaper correspondents of Pittsburg, made a phenomenally fast run between the two cities this afternoon. The distance between the two cities over the route mentioned is 167 miles, and the actual running time of the train was 2 hours and 29 minutes, lowering all previous records by nearly an hour. The party came to witness the start tomorrow morning of the bicycle road race between this city and Pittsburg, in which Cleveland and Pittsburg teams will participate.

As to a Life of Slavery.

Massillon, O., July 18.—Mayor Delmagro, of Spring Valley, Ill., who was asked to set at rest the question of the truth of the report sent out that several hundred coal miners of that district had volunteered to enter a state of slavery if guaranteed the necessaries of life by the mine owners, has made the following reply: "I am unable to say whether our miners would accept such an offer as was described in the telegram. I firmly believe, however, that over one half of them would be willing to sign such an ironclad contract."

Foot races are common among the boys and young men in Lebanon county.

CATCHING A DYNAMITER.

A German Criminal Arrested in Centre County—He Gave on Clue to His Whereabouts.

Tyrone, Pa., July 17.—A German named Simon Dunshot, a resident of Scotia, Centre county, on the Tyrone and Lewisburg railroad, was arrested yesterday, charged with being an anarchist and having blown up a jail and an adjoining building in Germany about two years ago. The arrest was made by a New York lawyer named C. F. Hartman and C. F. Alexander, a Pittsburg detective.

Dunshot located at Scotia about a dozen years ago and was employed as an ore washer. Three years ago he went to Germany on a visit. While there he was several times arrested for violations of the German laws. During his last imprisonment he broke jail, blowing that and another building up with dynamite, and escaped to this country, going first to Minnesota and afterward returning to his family and former avocation at Scotia.

Dunshot, during a recent visit to Pittsburg, made inquiry as to the probable cost of arresting and transporting a criminal from this country to Germany. His evident satisfaction on being told that it would perhaps cost several thousand dollars, which sum he probably thought would not be expended in hunting him down, gave the first clue.

The suspected man was found near the ore washer, and he and his family resisted his arrest vigoronsly. A young son of Dunshot attempted to stab Lawyer Hartman with a knife. The prisoner was brought to this place on the evening train, and several hours later the party left for New York, with the prisoner handcuffed and chained to the car seat. From New York he will be taken to the scene of his crime for trial.

Pennsylvania Editors.

Buffalo, N. Y., July 17.—The Twenty second annual excursion of the Pennsylvania State Editorial association is being held in Buffalo to-day. The party numbers 300, including the members, their families and guests. Of the 1,200 papers over 700 are represented. This morning the editors went to Depew as guests of the Lehigh Valley railroad.

A business meeting was held this afternoon, at which the libel law of Pennsylvania was discussed. The association considers the libel law altogether too stringent and will endeavor to secure a reform through the aid of legislation. A bill drafted by some of the members of the association for presentation to the next legislature was submitted at the meeting. It was referred to a committee of ten to be appointed by the president.

This evening the members attended the Academy of music. To-morrow morning they will go to Niagara Falls, remaining there over night and going thence to Toronto on Friday.

Big Wind Storm.

Findlay, O., July 19. One of the most destructive wind storms that ever passed over this section of the state occurred in and around this city this afternoon, causing much damage to property. The wind was of short duration, lasting only five minutes, but swept everything movable before it. The rain was accompanied by hail, which, however, had no part in the destruction caused by the storm. The storm did not extend far beyond the city limits, and consequently no damage was done in the oil fields or to growing crops. The loss in the city is estimated at $5,000.

As to Compulsory Education.

Harrisburg, July 18.—Attorney General McCormick has given the department public instruction an opinion to the effect that the registration of school children between the ages of 8 and 13, as required by the Farr compulsory education law, need not be made until next spring, as the act, which requires the assessors to do this work at the regular spring assessment or as soon thereafter as may be practicable was not approved until after the spring assessment this year. This will practically prevent the law going into effect until next year.

The National Guard of the State

Harrisburg, July 18.—An order from the headquarters of the National Guard grants Colonel L. W. Read, surgeon general, leave of absence from July 16 to Aug. 17. Second Lieutenant C. Conkling, battalion adjutant of the One Hundred and Thirty-eighth regiment, having tendered his resignation, is honorably discharged to take effect July 8.

The spring inspection reports were received at headquarters to night and will be placed in the hands of the state printer to-morrow with orders to rush the work

Didn't Find a Third Body.

Toronto, Ont., July 18.—The Nudel cottage on St. Vincent street was the scene of a further search to-day by Detectives Geyer and Cuddy to satisfy themselves and the public that the remains of Howard Pitezel were not concealed somewhere in the cellar, where his sisters were buried or in the adjoining yard, but nothing was found and it now seems certain that the boy was murdered and his body disposed of in Detroit.

Primrose Knight Wins.

London, July 18.—The selling plate of 103 soverigns for all ages, at New Market today, was won by Primrose Knight, Mr. Dwyer's American horse, Don Alonza, running second.

Primrose Knight was bid up to 500 guineas, at which figure he was bought by Mr. M. F. Dwyer.

THE CASE OF COLLINS.

The Judge Delivers A Charge Which Practically is Against Defendant.

Trenton, N. J., July 18.—The summing up in the case of John Collins, charged with the murder of Student Ohl, began this morning. Assistant Prosecutor Apgar spoke for the state. Mr. Apgar said the jury should eliminate all considerations of sympathy for Collins because the students did not go home after the first quarrel. Was not more sympathy to be felt over the death of Ohl, who lost his life through Collin's invitation to "Come here, you white—?" A man is guilty of murder in the first degreee even if the man killed provokes the assault. As to why the students did not go home it might be asked as well "Why did not Collins go home?"

Mr. Apgar cited that Collins' testimony of the shooting did not agree with that given by the other witnesses, and was not so likely to be true. Cochran's testimony, he said was given without any vindictive feeling against the man who shot him, and was the truth as to what happened.

Judge Beasley, for the defense, referred to the students as having only contempt for negroes, and characterized a foot ball player as a cross between a prize fighter and a whistler. He said that the students were the aggressors, and held as evidence of this their getting of the palings and not going home after the first quarrel.

The case was given to the jury at 4:40 o'clock this afternoon. Justice Gummere charged the jury briefly and said that if Collins story was believed the jury should acquit. The defendant's story should, however, be taken with a good deal of caution. It was contradicted materially by several witnesses. If the jury believed that Collins did use the words attributed to him, inviting the students into the hall way with the intention of shooting if they attacked him, then it was murder in the first degree, no matter how vicious might have been the assault which he courted.

The jury in the case of J. Collins convicted of murdering Ohl, came in at 11:15 to-night with a verdict of murder in the second degree.

Dead in a Field.

Norwalk, Conn., July 18.—Miss Katie Valentine, daughter of Charles E. Valentine, of Butler street, was found dead in the field at the rear of the summer residence of Mrs. Rebecca D. Matthew, of New York, in this city.

Le Grand Jennings attempted to raise the body and was knocked down by an electric shock. It was discovered that the girl had been killed by electricity. Her face was lying across a telephone wire which had crossed with a heavily charged trolley cable. The face from the ear to the mouth was burned nearly to the bone.

The girl, who was 16 years old to day, was employed at Roth & Goldschmidt's corset factory, at South Norwalk, and was on her way home from the factory. Shortly after her arrival she had complained of feeling ill and was allowed to go home. On the way she made a short cut across lots, when she tripped and fell over a wire lying in the grass and thus was killed.

Opposed to Hungarian Labor.

Johnstown, Pa., July 18.—The citizens and the Grand Army of the Republic post of Lilly, this county, are up in arms against the employment of Hungarians and other foreigners in the coal mines there, and at a mass meeting a committee of prominent property holders was appointed to draft resolutions endorsing the citizens' movement and condemning the employment of the offensive foreigners. The citizens' committee, in reporting its resolutions, appointed a sub-committee of ministers and property owners to wait upon the mine owners to urge the discharging of Hungarians and the employment of the resident taxpayers.

Drawing the Line on Discharges.

St. Louis, Mo., July 19.—Nearly 200 coal miners employed in the Crown and Lenz mines, on the line of the Louisville, Evansville and St. Louis railway, went on a strike this morning. The mines are situated ten miles from East St. Louis. The cause of the strike is alleged as the discharge by Manager Taylor of the Crown mines, of his brother, who is a boss miner, and a man who occupied a mine room with him. The miners demanded the reinstatement of these men, which was refused. The Lenz miners went out in sympathy. The feeling is very bitter and it looks as if all the miners in the vicinity would go out.

Silver in Wisconsin.

La Crosse, Wis., July 19.—While drilling for an artesian well at a depth of 250 feet, George Grafs, residing fifteen miles south of here and just across the river, struck a twelve foot vein of mineral that he thought was silver. He brought specimens to La Crosse for examination by a chemist, who declares it silver of a good quality. The town of Brownsville, near which the find is situated, is greatly excited. Traces of silver and lead have been found in the past.

The Huckleberry Crop.

The crop of huckleberries in the woods this year in this and neighboring counties is immense and hundreds of bushels have been gathered. It is estimated that a thousand bushels have been picked on the Bald Eagle mountains in the vicinity of Howard and shipped to the Eastern cities

One Fireman Killed.

Philadelphia, July.—While a hose cart was going to a fire this morning it overturned at Nineteenth and Vine streets, throwing its occupants to the street, killing one of them and severely injuring four others. John A. Ryder, aged 48 years, a hoseman, was thrown beneath the heavy cart and received injuries from which he died shortly afterwards in the hospital. Four other firemen were severely injured as follows: Daniel O'Connell, P. M. Collins, jr., William Murphy and John McGehean. With the exception of McGehean all were able to leave the hospital after having their injuries attended to.

The accident was caused by an effort of the driver of the hose cart to avoid a collision with a wagon. The driver of the cart was compelled to pull sharply out to avoid the wagon, and in doing so the wheel of the cart struck the street car rail and the heavy cart was overturned. The driver jumped when the cart went over and was the only man on it who was injured.

Flinn is For Gilkeson.

A Pittsburg afternoon and Sunday paper has started a story to the effect that Mr. Gilkeson is to be bowled out of the race of his candidacy for State Chairman and Senator W. Flinn of Pittsburg substituted. These stories are to be expected and there will be many of them before the campaign ages many days. Senator Flinn is doing very hard and very intelligent work for Governor Hastings and Mr. Gilkeson in the western countries of the State. He is for no compromise and no recession from any position taken by those who are opposing Col. Quay.

This is a campaign in which all of the Republicans of Pennsylvania are uncompromisingly engaged in a struggle to suppress an attempt at monarchy and monopoly and, well, what is the use of talking of compromise?

Who the Young Man Was.

On the night of the 19th of July, 1893, an unknown young man, aged about 19 years, dressed in Scotch suit and pink outing shirt, was killed on the railroad at Warriorridge and his remains were buried at Huntingdon. It now appears the name of the unfortunate young man was Frank Schutretter, of Philadelphia, who ran away from home with two other boys to become cowboys. They got as far as Pittsburg when, out of money and hungry, they became disgusted and were returning home on a freight train when Schutretter fell off and was killed. His companions kept the matter secret for a year, fearing arrest. The affair leaked out when a brother of Schrutretter asked the young men a few days ago concerning his brother's whereabouts.

Lightning's Fatal Stroke.

York, Pa., July 19.—Word was received in this city to-day of a peculiar fatality at the state quarries at South Delta, just across the York county line, in Maryland, on Tuesday. During the prevalence of a thunder storm James Norris, an employe of the Jones quarries, was stepping into the basket to be lifted out of the deep quarry when a bolt of lightning struck the cable, ran down to the basket and killed Norris instantly. The unfortunate man was buried yesterday.

Sentence Deferred in Collins' Case.

Trenton, N. J., July 19.—Sentence has been deferred until next Wednesday in the case of John S. Collins, the negro who shot and killed Frederick Ohl and seriously wounded Garrett Cochran, both Princeton students. The verdict of murder in the second degree was reached on the third ballot. The first one stood seven for murdur in the first degree and five for manslaughter. The second ballot stood eight for murder in the first degree and four for manslaughter.

I AM

A WORKING GIRL.

I Stand Ten Hours a Day.

[SPECIAL TO OUR LADY READERS.]

"I have suffered terribly with bearing-down pains, giddiness, backache, and kidney trouble. *Lydia E. Pinkham's* Vegetable Compound has given me new life. I recommend it to all." — MAGGIE LUKENS, Thirteenth and Butte Streets, Nicetown, Pa.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take he place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO. TOLEDO, O.

Insects are reported more numerous than usual during this summer in all parts of the region washed by the Lehigh river.

At a party in Norristown lately girls were bare footed. It was a Trilby exhibition and excited much merriment among the boys.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Hot :- Work

It is a pleasure to cook when the housewife has such dainties as can be found at the EUREKA GROCERY. The best flours, prepared food of all kinds, canned meats fish, etc.

Prices to suit the times. Call and see for yourself. Store on High street, next door to post offiec

E. C. TUTEN, Prop.

A Small Judicious Investment Often Brings a Fortune.

DEAR READERS:

We have heard from many of you during the brief period that our advertisement appeared in this space. Any others desiring full reports and statements can secure same by writing to us.

The further opening up of the South Central group of gold mines and the erection of a Stamp Mill to reduce the company's ore to bullion, is a square, legitimate use of capital.

1. Mr Barry, formerly of Cripple Creek, the Bonanza gold camp of Colorado, sold his interests there, and bought the Morning Star gold mine, a producer in the vicinity of the South Central group.

2. Captain Plummer, formerly of the Granite Mountain mine, is now working the Delamar Mine, a large producer in the vicinity of the South Central group.

As the Granite Mountain (Gold and Silver Mining Co.) stock rose from about twelve cents a share to over $50 a share, and paid from 25 cents to 50 cents per share per month in dividends, under the superintendency of Captain Plummer, we consider him a pretty safe guide to follow in mining, and we invite you to participate in the investment.

Orders received within a reasonable time, on or accompanied by the following coupon [Mention this paper,] will be filled at

12 1-2 Cents a Share. **Certain** to advance and yield 10 to 100 fold, and over, on this price.

Very respectfully yours,

The South Central Consolidated Gold Mining and Milling Co.

[STOCK ORDER FORM.]

Coupon.

Fill in number of shares wanted, sign detach and forward this form to Treasurer South Central Consolidated Gold Mining and Milling Co., 712 & 713 National Bank of Commerce Bldg., St. Louis, Mo.

Send to me (or us) to address as below ..... Shares, of One Dollar each, full paid and non-assessable stock of THE SOUTH CENTRAL CONSOLIDATED GOLD MINING AND MILLING COMPANY, at 12 1-2cents per share, to be payment in full for the stock, for which I will pay or remit on delivery.

NAME .....

TOWN ..... STATE .....

Coupon.

Please also send us the Names and Postoffice address of persons who have money to invest and who you think might like an opportunity to purchase some of this stock, and you will be doing them a favor.

AGENTS The wealth of the Consolidated Mines justifies the employment of stock-selling agents on very liberal terms. Application for agencies will receive prompt attention.

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

The Sun Paper.

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DONQUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

155-137 Fifth Avenue, N. Y.

FATAL ACCIDENT.

A Newark Sewer Caved in and Many Laborers Were Caught.

Newark, N. J., July 18.—Two men were killed, one fatally injured and two others frightfully maimed by the cave-in of 400 feet of a sewer excavation, at Harrison, at 3.15 o'clock this afternoon. The dead are: Dennis Ryan, 40 years old, of Bowery street, Newark; George Villaude, 38 years old, of 60 treet, Newark.

The injured are: James McDonald, 40 years old, of 17 Bowery street, Newark, both legs broken and internally injured; taken to St. Michael's hospital, Newark; will die; James Larrady, 19 years old, of Monroe street, scalp cut, left arm broken; taken to hospital; Thomas Brennan, 50 years old, cut about body; taken to the hospital.

The killed and injured men were working twelve feet below the surface in a sewer in Jersey street, near Fourth, where they were with sixteen others. The work was in the care of Contractor Thomas J. Renan, of this city. The sides of the excavation had been improperly braced and last night's rain had undermined the sides. Without warning 400 tons of earth gave way, carrying down bracing, timbers and rock upon the laborers. Eleven of the men were saved from death by a shelf formed by the timbers.

That Gold Reserve Again.

Washington, July 19.—Secretary Carlisle, in accordance with his almost invariable rule, decided to express an opinion as to the effect on the gold reserve the shipment abroad of $1,000,000 of that coin would have. This shipment will reduce the treasury gold reserve to about $105,800,000. Since July 1, by withdrawals of gold for redemption purposes, the treasury has lost about $1,500,000. In that time, however, gold gains from mintage have partly offset this loss, so that net loss to the gold reserve is only about $670,000. The fact that such a large gold shipment is now made, following as it does those of smaller amounts for a week past, is causing treasury officials to inquire if this is the beginning of an extended gold export movement. With sterling exchange at the high rate it is now commanding—$4.90 and over—it is calculated at the department that it would cost $7,500 to go into the New York market and buy exchange for $1,000,000 gold, deliverable in London.

The cost of export, if the gold is taken from the New York sub-treasury and actually sent by steamer, it is figured, would cost the exporter only about $2,500 or even less for every $1,000,000. With the market in this condition treasury officials only hope for the best, which is that the commercial demand for gold for export will take place with the movement of the crops this fall, if not before.

An Ocean Race Now On.

Washington, July 18.—An interesting ocean race between two vessels of the United States navy began to-day from Funchal, Maderia. The vessels are the practice ship Monongahela, having on board a class of naval cadets, and the training ship Alliance, manned by a large number of naval apprentices. A cable message received at the navy department this afternoon indicates that the vessel started together. The Monongahela is bound for Annapolis and the Alliance for Yorktown, so that the race will be to the Virginia capes. Both vessels will proceed under sail, but the Alliance is at somewhat of a disadvantage by the fact that she will have to drag her unused propeller. The Alliance has a displacement of 1,275 tons, while that of the Monongahela is 2,100 tons. There is much rivalry between the cadets and the apprentices and the boys on each ship will work hard to have their particular vessel reach the capes first.

No News Yet of the Imprisoned Men.

Iron Mountain, Mich., July 18.—Nothing has been heard from the nine men imprisoned in the Pewabic mine last night by a cave-in. The rescuing party worked steadily all night, but slow progress was made. The work has been greatly impeded by the caving in of the ground in which the men are working and it may be twenty-four hours yet before the rescue is effected. The crash came just as the men were leaving the mine and it is feared that they are all caught under the flying mass of ore and timbers.

The rescue party is in constant danger of meeting the fate of their companions. This is the second accident of this nature that has occured at this mine within a year. The first imprisoned eleven men were in a room for forty-eight hours. They were all rescued uninjured.

Third Test Satisfactory.

Bethlehem, Pa., July 19.—The eight inch gun made by the Bethlehem Iron Company on its contract with the government was given another test at the company's proving grounds to-day. The gun is the first one forged by the company.

Three shots were fired from it by F. C. Segur in the presence of the government inspectors. The result was very satisfactory.

The government requires that ten satisfactory trials be given it before its acceptance. This was the third test.

Foraker's Narrow Escape.

Springfield, Ohio, July 19.—Ex-Governor Foraker had a narrow escape from death last night between Dayton and Enon by a large stone thrown in the window of a sleeping car on the Big Four train.

Great Iron Production.

Figures on the production of pig iron leave no room to doubt the active prosperity of the times. For the first half of this year the production has been almost double what it was for the first six months of 1894, and the indications are the total for the year will be nearly if not quite 9,000,000 tons. The maximum production of this country was in 1890, when the total was 9,202,000 tons.

A pig iron production well up toward the highest figures ever reached will leave nothing of the business revival to conjecture. It is an obvious fact. It is further significant for the future. It means that American iron and steel are independent of the foreign markets, and that we may soon be forcing England, if not Germany, out of the markets of the world. With the unlimited supplies of ore in the Mesaba range, that can be mined with a steam shovel, and other unlimited supplies in the Gogebic region, for mixing, that can be mined as cheaply as any in the world, there is no reason why our iron and steel manufactures should not be the greatest in the world.

With an unbroken water haul from the mines on the great lakes to the furnaces at Pittsburg and in the valleys, the future possibilities are inestimable. We have the coal and coke here, with more economical methods of producing the latter coming into vogue. As stated before, the ore supply is all that could be asked. All that is needed is the transportation that is being arranged for to outclass the world.

A Short Hay Crop.

The farmer who has hay to sell this year will find it a paying crop and generally through the states east of the Alleghenies there has been enough rainfall to bring the yield nearly to the average. But in the valleys of the Ohio, the upper Mississippi and the Missouri a deficiency of from six to eleven inches in the rainfall during the spring months has made the grass crop unusually short, a large proportion of the meadows being scarcely worth cutting.

The hay crop of last year was nearly 11,000,000 tons less than the crop of 1893, and the prospect of another and much greater deficiency in the marketable surplus has put a fancy price upon the available supply out west.

Farmers can generally provide for home use a substitute in the form of corn fodder, or eke out a deficiency of clover and timothy by turning under winter wheat stubble and sowing millet.

But a shortage in the hay crop is a big loss to the country. The farm value of this crop of 1893, according to the statistician of the Agricultural Department was $570,882,872, or more than twice the farm value of last year's wheat crop and $16,000,000 more than the value of the last year's corn crop.

Treed by a Bear.

Clarence Ohl, a young man whose home is at Woolrich, had a thrilling experience yesterday while picking huckleberries in the woods along Chatham's run. Mr. Ohl became separated from the party he went to the woods with, and while picking berries was surprised by the angry growl of some animal near him, and soon saw through the bushes and undergrowth a large black bear coming towards him. Being unarmed, and seeing the bear approaching, young Ohl made a rush for a near by tree which he climbed quickly. The bear took a position at the foot of the tree and remained there for nearly an hour, constantly reminding the young man of the fact by fierce growls. Finally bruin departed and the young man descended from his perch and immediately struck a bee line for home.

A party of berry pickers while in the Queen's Run woods yesterday saw a mother bear and two cubs.

Sunbury Man's Good Fortune.

A. S. Ruhl, a poor man of Sunbury has become suddenly rich through the invention of a rail splice which he had patented about a year ago. The splice is a mechanical device on the railroad tracks. The Pennsylvania railroad company made a thorough examination of the splice and pronounced it a success. The tests were made at Williamsport and Allegheny city. The company was about to close a deal with Mr. Ruhl when the Delaware, Lackawanna and Western railroad stepped in, offering the gentleman $80,000 for the right to use the splice and two per cent. royalty. Mr. Ruhl accepted the offer and the deal was closed yesterday.

The Note of Black in Dress.

A note of black continues to be recognized as giving a striking effect to many light gowns; often a large black hat covered with nodding black plumes is worn with a white or pale-tinted organdy, and a bunch of roses, violets, or yellow primroses is added to match the gown. Sashes and stock collars of black satin ribbon are seen with gowns of pink lawn, yellow dotted Swiss, or primrose-flowered organdy; and, again, only the girdle and a smart bow at the side will be black, while the stock-collar will be of puffed chiffon.—*From "Review of Fashions," in Demorest's Magazine for August.*

Imprisoned Miners Safe.

Iron Mountain, Mich., July 19.—The imprisoned miners at the Pewabic mine were released about midnight and not one of them was injured.

The escape is considered the most remarable in the history of mining. The men suffered no great inconvenience. They heard the first crash of the breaking timbers and made their escape to a dry drift of the first level before the cave-in occurred.

THE July *Citizen* contains a noble article by Rev. William Bayard Hale on Social Ideas and Social Realities. The realities of Nation, Family and Church are held up as concrete, living beings in comparison with which mobs, cliques, political parties, sectional and sectarian associations of all kinds are so transitory and unreal that they may be called mere convenient ideas. The following are among the stirring sentences of the paper:

The divided Church in the world to-day is failing to do its work. It is miserably, pitiably inefficient in the face of poverty and greed and crime and social uneasiness. Pauperized by division, the most absurd of economic errors, instead of being a dispenser, it is a hungry object of charity. To the world, it looks as if its chief concern were the raising of funds for its own support, and that by mountebank methods, sensational shows, indecent, and even illegal devices. An hour has come which s testing whether order and unity shall prevail in Society, or whether its Individuals, seceding from their places in the Nation, shall join for private gains, for ends to the advantage of a part of the Society only. A Mob need not be a violent crowd. Any aggregation of men, which being but part of the Nation, fancies itself the whole, is a Mob. There are Mobs of culture as well as of ignorance; of elegance, as well as of violence. When a religious order, or an art ring, or a circle of special refinement, or a lot of coal miners—when one or the other parties in the world of industry—begins to imagine itself to be Society, it becomes a Mob which Society must crush. It is necessary to assert that a Political Party has no real existence. It is changing, indefinite, nebulous thing, given a name for convenience's sake . . Pretending to be a reality, it is the greatest humbug we as a people have ever embraced. It is the silliest and hugest delusion of our political history. Devotion to Political Parties is our national idolatry.

The Citizen also contains Notes on Education in Europe by one of the most eminent of English educational experts, and an article on Pennsylvania Election Laws by Dr. Albert A. Bird.

Published by the American Society for the Extension of University Teaching, Philadelphia.

Successful Heliography.

A recently successful test of heliographic signaling was made from the border of British Columbia to Southern California, the message being relayed several times. Communication was established between the highest peaks across that region and the signals combined into words, the flashes of reflected sunlight being perfectly intelligible, and the transmission as rapid as by telegraph for the same distance. The experiment has fully demonstrated the practicability of transmitting intelligence in that way, but there is no prospect that heliography will become a competitor with telegraphy or telephony.

Under ordinary conditions the telegraph and telephone are much more satisfactory mediums for communication. They transmit messages just as quickly and accurately though requiring a little more expensive plants. Yet it is easy to conceive conditions under which the heliograph would become very valuable. Thus, in war, when wires are cut and railroads prevented from operation, the heliograph would still maintain communication that could not be cut off. The bonfire has been resorted to under such circumstances, just as bonfires and heliography were used by the Indians before telegraphs were invented.

For commercial purposes the heliograph is too uncertain to be valuable. It can only be operated on bright days, while consignments of perishable goods will not wait for the clouds to roll away. The recent experiment is valuable from a scientific point of view, but is not of any commercial value.

An Amusing Mistake.

A clergyman was very anxious to introduce some new hymn books into the church and arranged with his clerk that the latter was to give out the notice immediately after the sermon. The clerk, however, had a notice of his own with reference to the baptism of infants to give out; accordingly at the end of the sermon he arose and announced that "all those who had children whom they wished to have baptised were to send in their names at once to the clerk." The clergyman, who was stone deaf, assumed that the clerk was giving out the hymn book notice and immediately rose and said: "And I should like to say, for the benefit of those who haven't any that they may be obtained in the vestry any day from three to four o'clock; the ordinary little ones at one shilling each, and special ones with red backs at one shilling and four pence."

Collumsville Excited.

A few days ago Mrs. John Zerbe, of Collumsville, and her daughter became separated from a berrying party they were with on the mountain. The woman wandered through the woods until after night when she finally reached a farm house. She asked the farmer to take her home, as she knew her husband was alone with a baby and would be alarmed at her absence. The farmer however, did not take her until next morning. In the mean time, her husband, with a party of eighteen or twenty persons scoured the woods all that night. In the morning when the woman arrived there was great rejoicing and the bells were rung to call the searching party in from the mountain.

THE information conveyed in a bulletin entitled "The Organized Militia of the United States," just issued by the Military information Division of the War Department, affords a comprehensive idea of the extent and importance of the National Guard in this country. In many respects the reports embraced in the bulletin are a revelation to most people who are not familiar with this wonderful growth of this arm of the nation's defense. Up to the time of the railroad riots of 1875 the National Guard in the various states formed a very interesting and more or less resplendent addition to our gala day pageants Their tinselled trappings were an indispensible accompaniment to every well ordered parade, and the young men who enlisted in the service were animated more by the desire to participate in holiday festivities than by any wish to sacrifice their personal comforts and risk their lives for the defense of the state. But the memorable riots of 1877 caused a reorganization of the state militia for purposes of actual defense, and a discipline was immediately inaugurated that developed the hardness and heroism of true soldiers. In many states the militia has been raised to a plane of equipment and effectiveness equal in all respects to that maintained in the federal army. A summary of the active duty performed by the troops of different states in the year 1894 demonstrates that their services were in demand over a very large area of country. They were called out in Arkansas, California, Florida, Georgia, Indiana, Maryland, Nebraska, Pennsylvania, Washington, Utah, twice in Illinois, Iowa Montana and North Carolina, and eleven times in Ohio.

$5.75 to Atlantic City.

On Tuesday, July 23rd, the Central R. R. of Penna. will sell excursion tickets from Bellefonte and all local points to Atlantic City and return, good for ten days at the unusually low rate of $5.75 for the round trip via. Mill Hall, Williamsport and the Philadelphia & Reading's "Royal Route to the Sea." A Pullman Buffet Parlor car will be attached to the train at Williamsport and those so inclined can board this car at that point. Train leaves Bellefonte at 7.40 a. m. Further particulars can be obtained from C. R. R. of Pa. Ticket Agents. j18-4t

THE Month of Roses will be celebrated by a special edition of *American Gardening* devoted to roses and to rose growing. Prominent amateur and professional rosarians will assist in making this the finest and most attractive number of the kind ever issued. *A beautiful supplement, lithographed in eleven colors*, illustrating one of the best and most popular of the new roses, will be given away with each copy. This special Rose number will also be profusely illustrated by half-tone engravings, etc. We have made arrangements with the publishers (AMERICAN GARDENING, P. O. Box 1697, New York,) to have a copy of this superb number sent free to any of our readers who may apply for it.

REMEMBER there are hundreds of brands of White Lead (so called) on the market that are not White Lead, composed largely of Barytes and other cheap materials. But the number of brands of genuine

Strictly Pure White Lead

is limited. The following brands are standard "Old Dutch" process, and just as good as they were when you or your father were boys:

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on paints and color-card, free; it will probably save you a good many dollars.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

Bellefonte Republican,

To Correspondents.—No communication published unless accompanied by the real name of the writer.

Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—Mr. J. H. Fellenbaum, of Bellefonte, has been granted a patent for a pinch-bar.

—Company B is very busy making preparations to go to camp with a full company so as to maintain its present high rated standing.

—Water is to be piped into the Union cemetery on East Howard street, the same to be conveyed from the pipe on East High street. Workmen are now engaged laying the pipe.

—About the first of August Mr. Harvey Poorman, of Pleasant Gap, will sell off his household goods and emigrate with his family to Gallontown, Ohio, where he will make his future home.

—The raspberry, blackberry and dewberry season is fast drawing to a close and only the large black huckleberry, of all the berries remain. Next will come the delicious fruits, apples, pears, peaches, plums etc.

—On Wednesday morning the large weight that runs the town clock dropped on account of the rope breaking. The force was sufficient to break large portions of the plastering from the ceiling of the Court House room. It was promptly repaired.

—The convention of the State Sunday School Association will be held at Williamsport commencing October 8. Hon. John Wanamaker, State President, will be present and deliver an address. An interesting program has been arranged for the event.

—The managers of the Childrens' Aid Society, of Bellefonte, desire to find good homes for four children. Two boys, aged 14 and 3 years, two girls, one 8 years old and the other 5. Inquire of Miss J. E. Natt, Sec., No. 19, West Curtin street, Bellefonte, Pa.

—Sanford Mothersbaugh, an aged resident of Brush mountain, near Tyrone, committed suicide on Thursday, by shooting himself in the head with a 32-calibre revolver. Poor health was given as the reason. He was a brother of Mrs. Graffius Weston, of Port Matilda.

—Bellefonte was favored with another of those delightful showers on Sunday evening, which, however, did not stop with a mere shower but continued on through most of the night. Such rains as those will do an endless amount of good to the corn and potato crops.

—The funeral of Mrs. Harriett Linn occurred on Thursday afternoon at 4 o'clock services being held at the house, Revs. Dr. Laurie and Wright officiating. The pallbearers were Messrs. J. Fearon Mann, D. F. Fortney, Jno. P. Harris, Jno. I. Potter, Wm. Shortlidge and L. T. Eddy.

—The next thing in the amusement line on the tapis for Bellefonte will be the tennis tournaments. The Junior's tournament will be held probably the latter part of this week and the Senior class tournament will be held about the middle of next week. Everybody is invited to witness these contests on the North ward school house grounds.

—A few days ago a young child of William Grauer, on Spring street, was playing with matches when one became ignited from which her clothing caught fire. W. R. Brachbill, happening to be near, extinguished the flames before the child was injured in the least. But this is another warning to parents to keep matches away from their children.

—Some one who has tried it recommends putting pulverized potash, which soon becomes sticky when exposed to the air, in all the rat holes in the house. The special detestation of a rat is anything which will stick to his silky coat. Some persons find a mixture of equal parts of cayenne pepper and scotch snuff sprinkled well into the holes still more efficacious.

—There is a new law in force now relating to the employment of men on work on public buildings. It provides that no man not a citizen of this country shall be employed on work being done for State, County, City or Borough, and that only American citizens shall do the work. That is all right. If a foreigner wants to work on the public buildings of this State, let him become a citizen and help defray the expenses. Let him acquire a glorious right to be a taxpayer.

—No better instance of good fortune coming through sheer luck could be found, perhaps than in the experience of a prospector named Mahoney, near Kalispell, Mont., recently. Having nothing whatever to do one afternoon, he, out of pure fancy, as an idle boy would throw stones at a mark, drilled a hole into a projecting hunk of rock and put in a shot, intending to blow out a ton or so of it just to see things fly. When the blast was made he found that he had broken into a treasure house. There was a big pocket in the rock the sides of which sparkled with almost pure gold. There was enough in eight to net Mahoney a handsome sum, and if the mine proved as rich as the surface indicates he has struck a bonanza.

—An effort is being made to raise money and organize a company to run the glass works.

—Business in Bellefonte is improving slowly. Especialy is this the case with the iron manufacturing industries.

—On August 7th the Philipsburg colored bass ball team will come to Bellefonte to cross bats with a team of this place.

—Now that the Centre county Republican "agony" is over, perhaps the politicians and others will get down to business once again.

—Sunday and Monday were the two hottest days of the season in Bellefonte, the thermometor registering 98 and 97 degrees in the shade respectively.

—The "Magnet" says: "Mr. George Gross has six fox hounds for sale very cheap." This must be a case of over-production, when the supply is greater than the demand.

—The funeral of Mrs. Gordon Tuesday afternoon at four o'clock was largely attended. Rev. Dr. Laurie officiated and the pall bearers were Willlam Shortlidge, J. P. Harris, Hammon Sechler, John I. Potter, Sam'l Shaeffer and H. B. Pontius.

—On Saturday the printers and cigar makers of Bellefonte will play the painters and paper hangers a match game of ball on the grounds at Hunter's Park. A special train will leave the depot for the Park promptly at 1.30 o'clock. Everybody should go up and see this game.

—Arrangements are being made at Mill Hall for a big union picnic in which all the Sunday schools, the P. O. S. of A. and the Golden Eagles will participate. The date and place have not been decided upon but it is probable the picnic will be held at either Clintondale or Hecla park.

—There will be a festival in the yard of the M. E. chapel at Coleville, on Saturday evening. It is for the benefit of the church, as the people are poor (all the poorer because of recent sickness) and need help to pay the pastor's salary and for other expenses. Help them along.

—Dr. George Eadie, Recorder of West Branch lodge, No. 231, A. O. U. W., was in Bellefonte Saturday afternoon making out papers to prove the death of the late William Schulty of this city, who was a member of West Branch lodge, and whose widow is entitled to receive two thousand dollars from the order.

—A curiosity exists on the farm of J. J. Twigg, in Rush township, that has excited some little attention. A dead pine tree, perhaps fifty feet high, has a gooseberry bush growing out of its side thirty feet from the ground, on which there are many berries. The question arises, how did the bush get there?

—At the farm house of Mr. John Snyder in East Nittany Valley on Saturday Mrs. Snyder had her attention attracted by the queer action of a maltese cat in the garden. Mrs. Snyder investigated and found the cat had killed a snake two feet long of the species known as a house snake, and was feasting on the snake's carcass.

—The Grand United Order of colored Odd Fellows will give an entertainment on Thursday, July 25, 1895, in the vacant store room on Bishop street, owned by Mrs. McCarty. Admission, only 10 cents. Each ticket is numbered, and a set of solid silver knives and forks will be awarded to the one holding the lucky number. Everybody buy a ticket, as you do not know your luck.

—The Logan Fire Company will hold their annual picnic on or about August 15. They have not decided at which park it will be held, but the committee in charge will announce the exact date and place in the course of a day or so. This company has also accepted the invitation to attend the State Firemens' Convention, at Reading, Pa., Oct. 1, 2, 3, and 4, with a full company in uniform.

—Kerosene has many valuable properties in addition to being one of the best illuminants in the world. It is the surest destroyer of insect pests that is known. Even the mosquito, about the worst of the lot, can be driven out of localities where they abound. This all-pervading pest, as is well known, prevails most numerous where there are ponds and stagnant waters. Kerosene poured over these destroys not only the larvae, but drives away the matured insect. Some localities have been entirely freed of them in this way.

—The annual meeting of the Valentine Iron Company was held at the Company's office Thursday. The Board of Directors for the ensuing year is composed of O. H. Reyhard, of Williamsport, Pa.; Charles W. Wilhelm, of Reading, Pa., Walter L. Ross, of Philadelphia, Pa., and John P. Harris, Robert Valentine and J. W. Gephart, of Bellefonte, Pa. In the organization of the new board J. W. Gephart was re-elected President, and Robert Valentine, Secretary and Treasurer. A majority of the entire stock of the company was represented at the meeting, and the shareholders present were well satisfied with the record made by the company in the unprecedented depression of the iron market of the past few years. The plant is now running full in all its departments, and in view of the improved condition of the iron market, active steps are being taken to run full during the coming year. The large accumulated stock of pig iron at the furnace a few months ago has disappeared, and shipments for weeks past have been in excess of the daily output. This mark of prosperity on the part of our largest industry should gratify everybody in our community.

Officials vs. Lawyers.

This afternoon at 3 o'clock is the time for the great game of ball between the court officials and the lawyers. Gen. Geo. Washington (Rumberger) has very kindly furnished us with a free "cast of characters" for the game and the same is as follows:

Officials	Pos.	Lawyers
Hunter	Pitcher	Murray
Atwood	Catcher	Quigley
Rumberger	Short	N. Spangler
Dukeman	1st. Base	Keller
Jackson	2nd. Base	Orvis
Singer	3rd. Base	Taylor
Strohm	Right field	Wetzel
Kimport	Left field	J. Dale
Goodhart	Centre	Runkle

Judge Furst and D. F. Fortney, water carriers; John Q. Miles, coach; Mitch Cunningham, Umpire; Morrison and Mitchell, scorers. W. G. Morrison, General Manager.

Central Railroad Co. Picnics.

The following dates have been arranged for picnic parties at Clintondale and Hecla Parks:

Lock Haven English Lutheran Sunday School, July 25th.

Lock Haven St. Pauls Sunday School, July 26th; Sunday Schools of the Reformed Churches of Salona, Clintondale and Hublersburg, August 10th, and Clinton Co., Veteran Association, August 15th, at Clintondale.

Pine Street M. E. Sunday school, of Williamsport, July 26th. Montoursville Lutheran Sunday school, July 30th. Salona M. E. Sunday school, August 1. Bellefonte Catholic Sunday school, August 7th. Lutheran Sunday school, of Salona, August 8th, and Beech Creek railroad employees' picnic, August 17th, at Hecla Park.

Funeral of John Garbrick.

Monday afternoon at 2 o'clock, the earthly remains of John Garbrick were laid to rest. The funeral services were in charge of the K. G. E. commandery and castle, of which the deceased was a member. The services at the residence of his father were very impressive and in charge of the Rev's Rue and Hoshour. The Bellefonte band led the procession to the cemetery, where the interesting burial rites of the Order were performed by Chaplain Chas. Bell.

Deceased, aged 29 years, was the only son of Mr. and Mrs. Amos Garbrick. The whole community will feel the loss of this young man, who has always been identified with every movement that tended to the advancement of the town.

Marriage Licenses.

Following is the list of marriage licenses granted by Orphans' Court Clerk, G. W. Rumberger, during the past week:

Alfred Catherman, of Union county, and Mary A. Slack, of Potter township.

E. W. Boob and R. E. Bubb, of Haines township.

E. Mewin Kuhn and Sadie E. Stover, of Boalsburg.

Elmer E. Royer and Anna M. Bloom, of Pine Grove Mills.

Daniel P. Breon, of Millheim, and Maud Kreamer, of Aaronsburg.

Charles Abbott, of Gearhartville, Clearfield county, and Annie O'Neal, of Philipsburg.

Suicide at Punxsutawney.

Elmer States, of Punxsutaney, son of County Commissioner States, of Jefferson county, committed suicide late Friday evening by shooting himself through the head. The young man was 25 years old and is supposed to have been slightly demented. Owing to trouble at home he had lived by himself in a shanty near the town. It was in this shanty that the young man took his life. Before suiciding he made a will leaving all his personal effects and about $500 in money to a young lady of that town. His funeral took place Sunday and was largely attended.

Lewis H. Watson Killed.

On Monday Lewis H. Watson, living near the Snow Shoe Intersection, had been to Milesburg where his father, Mr. Jackson Watson, lay dead. On his return trip home, something got out of shape with the harness on the horse Mr. Watson was driving and he got out of the buggy to fix them. While standing alongside the animal, the horse kicked Mr. Watson in the stomach, and the blow proved fatal, the gentleman dying inside an hour. Deceased was aged fifty some years and leaves a wife and a family. His father was buried Tuesday and the funeral of Mr. Lewis Watson occurred Wednesday.

Claims $15,000 Damages.

At Williamsport Saturday John Glace entered suit against the city to recover $15,000 damages for the death of his wife, who was killed in the trolley accident on the night of July 4. Mr. Glace claims that the accident was the result of carelessness on the part of the city in not having the proper warning lights placed on the pile of stones that caused the upset of the carriage containing Mrs. Glace, Louis Schneider and Mrs. Koch.

Adjust Family Differences.

Bad temper is often merely bad digestion.

Many quarrels attribute to perverse dispositions are due to disordered livers.

Ripans Tabules adjust family differences, and would prevent them, which is better, if taken in time.

Ripans Tabules, taken after meals, morning and evening, for a while, regulate the system and sweeten the temper. 7-25-1t

R. C. Quigley Elected Captain.

For some time past there has been more or less disaffection in Company B and the result was the resignation in June last of Capt. W. F. Reber. This left the company without an official head, and consequently Colonel Burchfield ordered an informal election to fill the vacancy to be held last Saturday night. This was done and Henry C. Quigley, Esq., was unanimously elected he receiving the full 27 votes of the members present. Of course, this was only an informal election, but when the company goes to camp next week at Glencairn Quigley will be formally declared the captain and given his commission.

Henry is ex-Adjutant of the Fifth Regiment, is a graduate of the West Point Military school and well up in military tactics and discipline and will undoubtedly make an able captain for the company; and now, we expect, ere long, to see the Bellefonte soldier boys to again force ahead to the enviable position which they occupied in years past.

Burglars En Rampant.

Sunday night was a good night for housebreaking. Along about two o'clock some one broke into the residence of Mrs. Bush, on Spring street. The man entered the room of Mrs. Callaway and she screamed for help Mr. George Weaver and Captain Montgomery were soon on the scent, but the thief escaped. This morning it was ascertained that the residences of Col. W. Fred Reynolds, Howard Lingle and Frank Warfield were also broken into, but nothing was taken from either place.

At Milesburg the store of W. B. Miles was broken into, the thieves breaking his cash register and securing less than one dollar in pennies. Hearing a noise they broke the front door and escaped.

John Garbrick Dead.

John Garbrick died at his home in Coleville at 1 o'clock Sunday morning. Mr. Garbrick had just recovered from a severe attack of typhoid fever and, going out too soon, took a relapse, and died in a few days. He was aged 29 years and leaves to mourn their loss a wife and two children. The funeral occurred Monday afternoon, at 2 o'clock, and it was under the auspices of the Knights of the Golden Eagle, both the Bellefonte Commandery and Castle being in attendance, headed by the Bellefonte band. Interment was made in the Union cemetery.

Odd Fellows Day.

Saturday was Odd Fellows day at Hecla Park, the Nittany Valley lodge holding their annual picnic at that place. About two thousand people were present, which included a large representation of the members of the order with their families and friends. Several bands of music were on the ground and enlivened the day with music, etc. Dr. John Bright was present and made a most admirable address on Odd Fellowship, so that all in all, it was a very pleasant time.

Death of an Infant.

Saturday night at half-past 10 o'clock the 10-months' old child of Mr. and Mrs. Ferd Newman, of Braddock, who were in Bellefonte on a visit to Mr. Newman's mother died at that lady's residence in this place, with cholera infantum. Mr. and Mrs. Newman came to Bellefonte on last Wednesday for the benefit of the child's health, only to have it die a few days after their arrival. In Braddock fifteen infants died in a few days with the above disease.

Letter List.

The following letters remain in the Bellefonte P. O. uncalled for July 22, 1895:

When called for please say advertised.

David F. Fortney, P. M.

Death of Mrs. James Gordon.

Mrs. James Gordon died at her residence on Curtin street Saturday night about midnight, at the advanced age of 82 years. She was one of the oldest residents of Bellefonte and a very estimable lady. She is survived by three children, namely, Wesley Gordon, of Topeka, Kansas; Judge Cyrus Gordon, of Clearfield, and I. N. Gordon, at home.

Atlantic City Excursion.

Don't forget that to-morrow the Central R. R., of Pa., will sell excursion tickets to Atlantic City at the nominal rate of $5.75 for the round trip, good for ten days, The service via this line and "The Royal Route to the Sea" is all that could be desired and passengers are landed at the seashore at 7.00 p. m. Train leaves Bellefonte at 7.40 a. m.

Struck by Lightning.

On Sunday evening John R. Shaffer, aged 67 years, of Madisonburg, went out in the field to bring in his cows and while there the heavy thunder storm came up and Mr. Shaffer sought shelter from the rain under an apple tree. While there lightning struck the tree shivering it and killing Mr. Shaffer, We have been unable to learn any further particulars.

Personal Pencilings.

Miss Blanche Long, of this place, is visiting friends in Renovo.

Mr. William Humes was a passenger east on the 4.50 train Monday.

Dr. and Mrs. George F. Harris are at present sojourning in New York City.

Mr. George W. Lyon, of Philadelphia, is transacting business in Bellefonte.

Mrs. Lizzie Ward, of Chicago, is visiting her brother, Mr. Theodore Cherry, of this place.

Mr. and Mrs. Frank Warfield departed on Thursday for a brief sojourn at Atlantic City.

Mrs. Isaac Mitchell and Miss Thomas, who have been in Europe, sailed on Saturday for New York, and will reach home in a few days.

Mrs. Fred Musser, of Philadelphia, is visiting at the home of her parents, Mr. and Mrs. Simeon Haupt, on Allegheny street, at present.

Mr. George Wittenwiller, of Philadelphia, who is a brother-in-law of Mr. R. A. Beck, has been a guest at the latter's home here for several days past.

Bond and Edward Valentine are at present visiting relatives in this place. Bond is now an attache at the Broad street station, Philadelphia, while Ed. is with Bailey, Banks & Biddle, in the same city.

The two Misses Mossberger, of Reading, arrived on Monday and are guests at the residence of Mr. W. B. Maitland. They are the daughters of a Reading banker. During this week, also, Miss Blair, of Pittsburg, is expected, and the Maitland residence bids fair to be even more lively than usual in the summer season.

A Catskil Hotel Man.

Mr. Joseph McGiffert, one of our prominent hotel proprietors, has reason to extol the merits of Dr. David Kennedy's Favorite Remedy. In speaking of it to our reporter he said: "I was all run down from kidney and liver trouble, three physicians treated me after the old school methods, but I grew worse. One of our bankers said to me. 'Why don't you take Dr. Kennedy's Favorite Remedy? It cured me. So I began its use, the result was I gained daily, and in a little while I was sound and well again. I suppose I have recommended it to a hundred or more of my summer boarders, and in every instance it has done them good." 7-25-1t

Robbed the Farmer.

Sunbury Daily: A young farmer, who lives five miles back from the river in Snyder county, had a rather unpleasant experience at Clement's Park Friday night. While sitting on a swing in a dark part of the park he was held up and robbed by a negro man and woman. The woman sat down at his side on the swing and began talking. Then the man appeared with a revolver and told the farmer to hold up his hands. This he very willingly did. The negress went through his pockets, taking his silver watch and about five dollars in change. Then the dusky couple took a quiet sneak and have not been seen since.

The Wisdom of the Past.

"——'Twas said by ancient sages
That love of life increased with years
So much, that in our latter stages,
When pain grows sharp and sickness rages,
The greatest love of life appears."

But to retain the vigor of youth, the enjoyment of life, the blessings of a healthy appetite, and a good digestion, take Dr. Pierce's Golden Medical Discovery and live to a hale and hearty old age. For dyspepsia, indigestion, "liver complaint" and kindred ailments it's guaranteed to cure or money paid for it will be refunded. 7-25-1t

The Snake and the Mule.

Nippenose News: While Huckster Strubel was driving by Harbaugh's in Hopple hollow Sunday his mule stepped upon a seven-foot rattle snake, which immediately coiled about his leg, climbed up to his side and took several wraps about the shaft. The snake frightened the mule out of his senses and he jumped in the fence, breaking the fence and shafts. Then the mule scared the snake by his wild kicking; anyhow the serpent uncoiled himself and crawled off into a field. Huckster Strubel was so frightened that he was speechless or a considerable time.

A Suicide's Will.

Sanford Mothersbaugh, an aged resident of Brush mountain, near Tyrone, committed suicide on Thursday by shooting himself in the head with a 32-calibre revolver. Poor health was given as the reason. He was worth about $8,000. He gave the Methodist church at Huntingdon $300 and also gave one of his houses in that town to the "party who might be living in it at the time of his death." There just happens to be a poor widow living in this house at this time.

A public officer can not have an interest in any contract or job of work coming under his jurisdiction.

WEATHER PREDICTIONS.

Foster Forecasts Unusual Weather in August and Frosts Due During That Month.

My last bulletin gave forecasts of the storm wave to cross the continent from the 24th to the 28th, and the next will reach the Pacific coast about the 28th, cross the west of Rockies country by the close of the 29th, great central valleys from the 30th to Aug. 1 and the eastern states Aug. 2.

This disturbance will usher in one of the cool periods of a month of very great extremes.

The warm wave will cross the west of Rockies country about July 28, great central valleys 30th and eastern states Aug. 1. A cool wave will cross the west of Rockies country about July 31, the great central valleys Aug. 2 and eastern states Aug. 4.

Unusual weather may be expected next month; unusual in many respects. Killing frosts will occur in some portions of the northern states. These frosts will probably occur at two periods in the month, with an interval of about two weeks. Of course extensive frosts are not expected in this mid-summer month. These frosts will come with the cool waves expected to cross the continent from 6th to 10th and 18th to 23d.

The temperature of August will average above on the Pacific slope, below in the great central valleys and about normal on the Atlantic coast. The lowest monthly average temperature will be in the Ohio, Missouri and upper Mississippi valleys and the upper lake country.

The cool weather of August will probably retard the corn crop, so that late corn will be injured by the general killing frosts about the middle of September in the northern corn belt.

Cold waves very seldom occur in August, but in a limited part of the upper Missouri and upper Mississippi valleys the sudden change, not far from Aug. 20, will almost amount to a cold wave. To constitute a cold wave the temperature must fall as much as twenty degrees in twenty-four hours, causing a freeze or frost, and in this case would require a fall from about 60 to about 40. Frosts sometimes at 40.

Rainfall of August will be not far from the general average. Deficiencies will occur on the Atlantic coast from New York north and Charleston south. Between these two points rainfall will be about normal. In Georgia and the southern states farther west about an average of rainfall may be expected. A little above the average of rainfall may be expected in the Ohio and Missouri valleys and the counties north of them. Rainfall will be short on the Pacific coast.

Severe storms may be expected in August not far from the 5th and 9th.

A Stubborn Woman.

We read that when Jove had the ordering of mundane affairs, he promised to send rain on any day that would be agreed upon by the whole world. It was reported at last that they were all ready for rain at a certain date, except an old woman who wanted to make soap on that particular day. Women are often accused of being capricious and whimsical; but there is one point on which they will agree—the desirability of being well, and looking well. Every woman, be she young or old, always wants to look her best; and in order to do this, it is necessary to attain that state of health which will impart a sparkle to her eye, a bloom to her cheek, and grace and symmetry to her entire form. Dr. Pierce's Favorite Prescription is a panacea for all chronic "weaknesses" and derangements of function peculiar to the sex, and is beyond all comparison the great healer of women. 7-25-1t.

All citizens are on an equality under the law, no matter from or in what county or state—a citizen of California has the same rights in our state as any of its inhabitants.

WHAT IS AN Electrotherm

It is a flexible sheet or pad composed of asbestos with embedded wire, which when attached to the socket of an electric lamp, offers sufficient resistance to the current to produce a **Constant** and **Uniform** degree of heat.

It has many advantages over the hot water bottle where there is an electric current in the house. Its heat is uniform, by its regulating switch three different degrees of heat can be used—it does not leak—it can be used as a poultice by applying over wet flannel—useful for cold feet, Cramps Chilliness, Rheumatism, Neuralgia, Pneumonia, local pains and wherever the application of heat is desired.
